GIES SUSTAINABILITY DASHBOARD: A USER-CENTERED IMPROVEMENT

GROUP 5: LINYAO GAO, RINGING SONG, YOU(MIA) WU, SAMYAK POKHARNA

FOCUS: PILLAR 3

Contents

- Overview
- Blueprint of Users' Journey
- Leader's journey
- Students' journey
- Donors' journey

Overview - Assumption

Have captured all the data

- Publications from Gies and peer business schools
- All general and SDG-aligned articles
- Full faculty profiles
- Donor-impact metrics

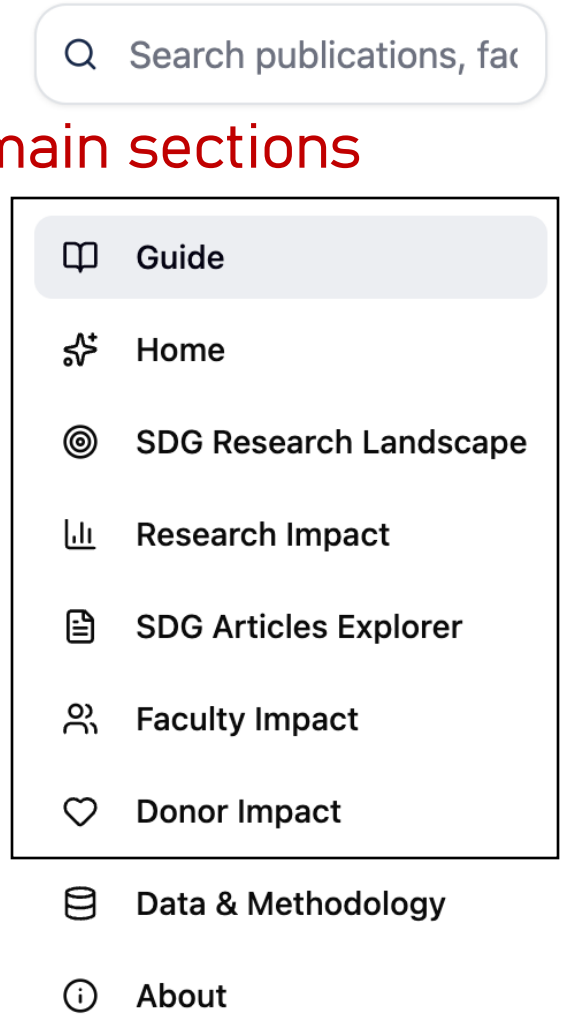

Overview - Method

The current dashboard contains strong data, but users struggle to find what they need.

Goal:
Make the dashboard truly *user-centered* by aligning structure and content with what leaders, students, and donors actually need.

What we did:
- Identified key **pain points** in the current dashboard
- Filling **missing sections** essential for each user group
- **Refining visualizations** to match real decision workflows
- Creating a **more intuitive overall structure**

Overview - Summary of What we Add / Redesign

Retained Sections:

- Retain **Research Impact** and **Faculty Impact** from the original dashboard, but improve logic of structure, or redesign some charts and metrics inside them
- Logic of Journal Trends: general output -> general growth -> SDG share & quality -> yearly structural shifts

Newly Added Sections:

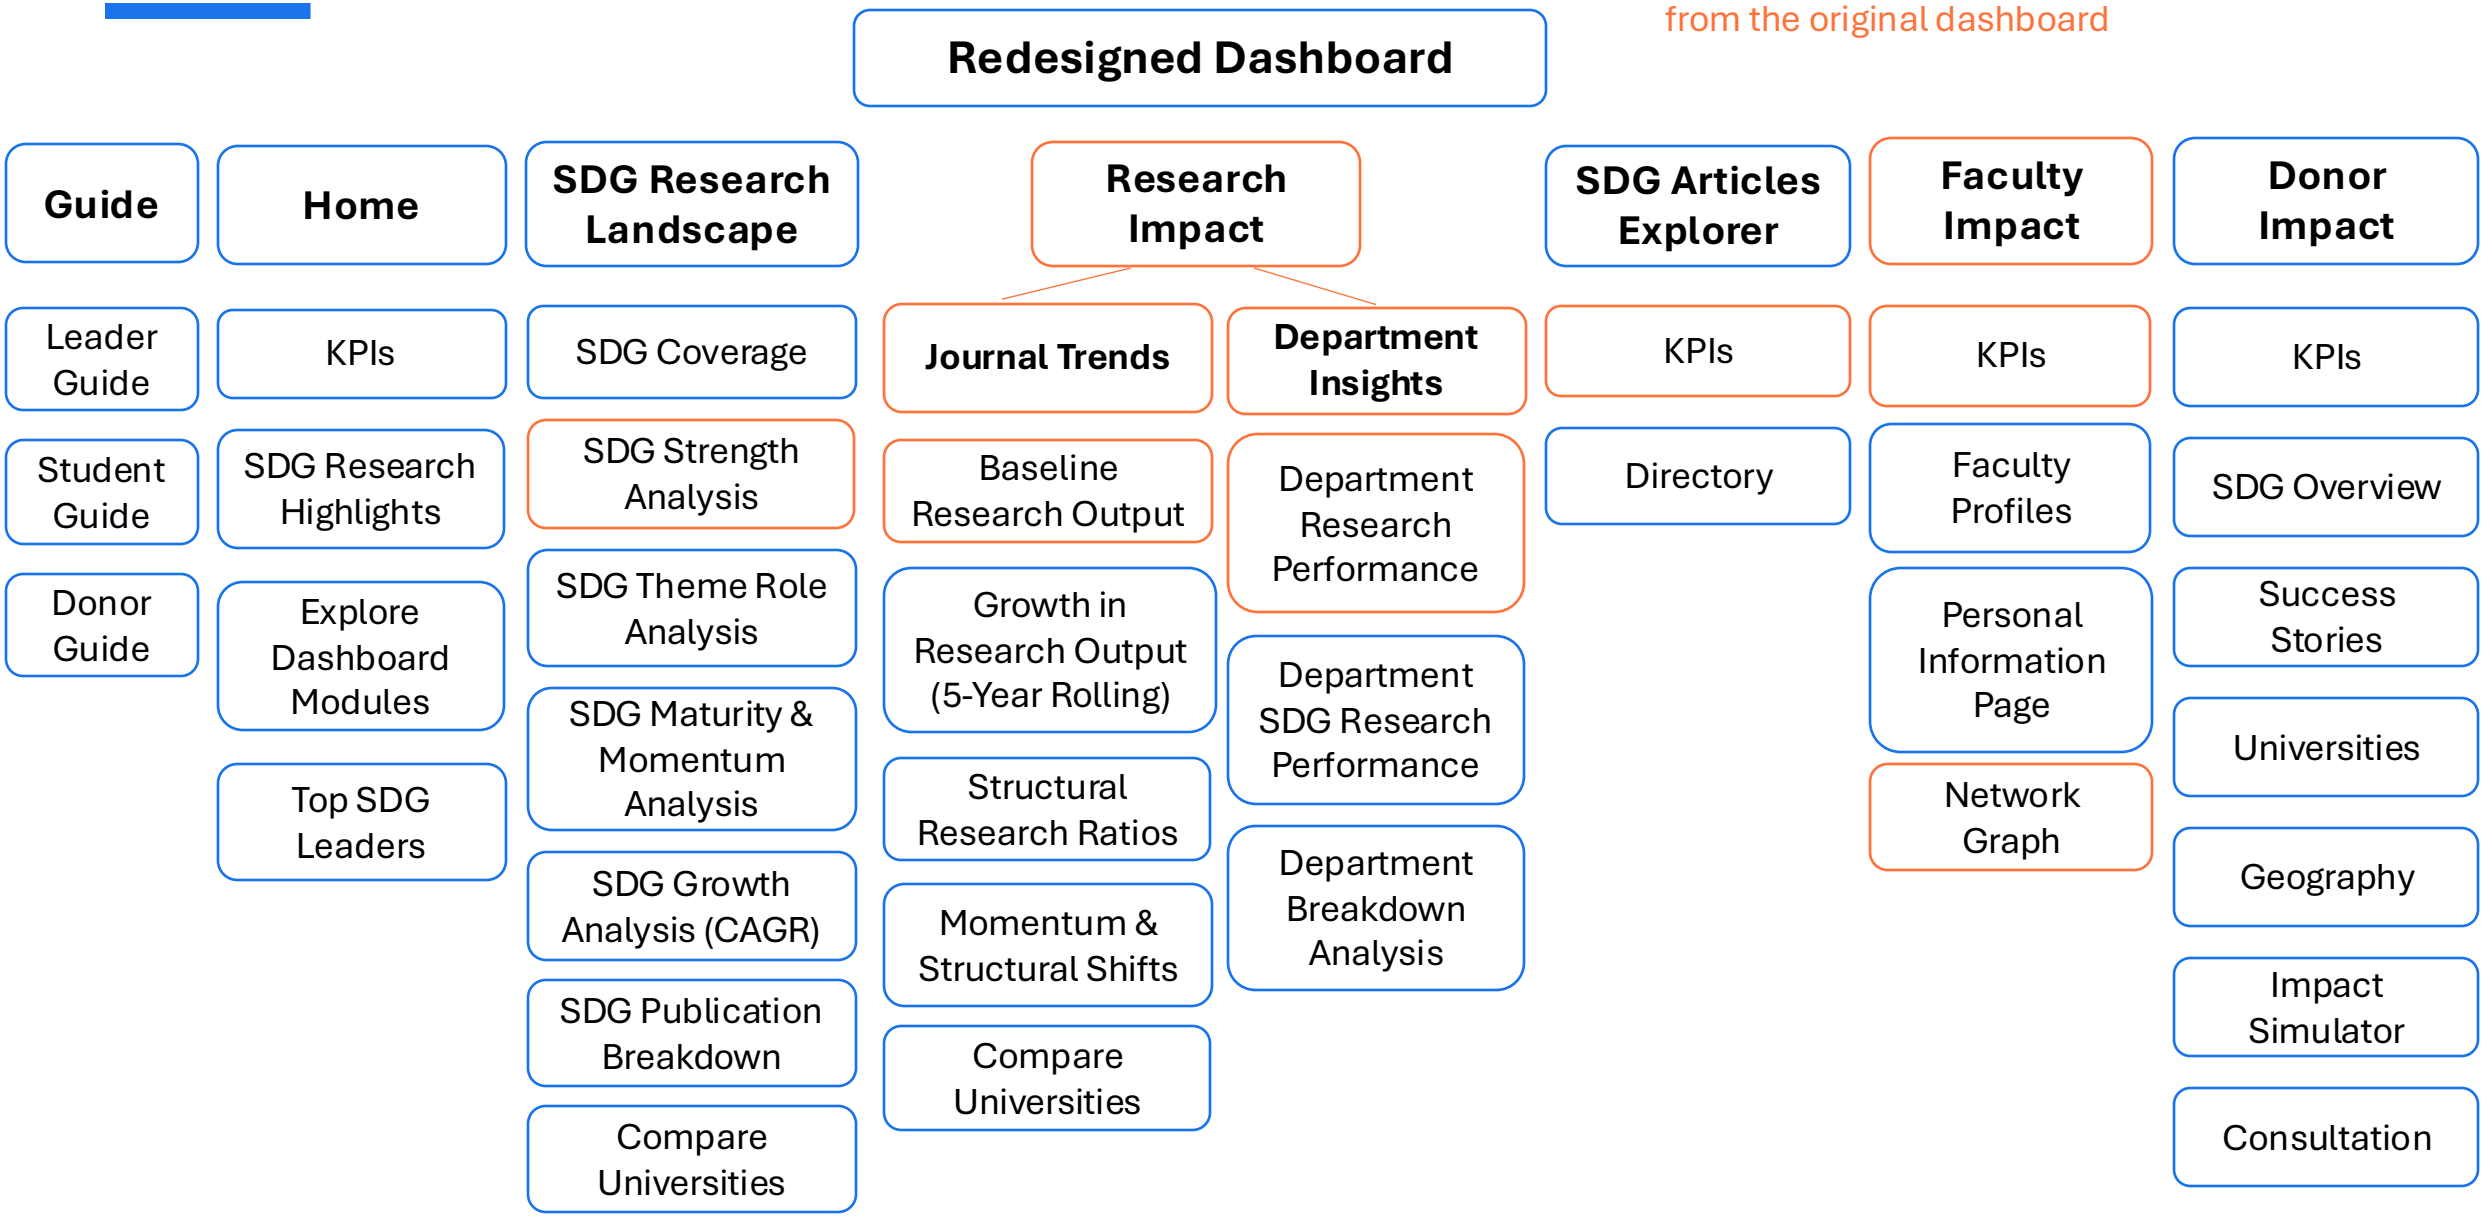

- Add Guide page
- Add Landing Page with Key KPIs (Home)
- Add SDG Research Landscape (Coverage → Distribution → Strategic Position → Goal Momentum → Growth Rate → Breakdown)
- Add SDG Articles Explorer
- Add Donor Impact

Cross-Section Enhancements:

- Add a Search Box for the entire dashboard

Overview - Redesigned Dashboard Structure

*Blue sections: Newly added or redesigned
Orange sections: Totally or partially remained from the original dashboard

Blueprint of Users' Journey

- Module Relevance by User Group

The table defines which sections matter to each user group.

Essential Part: ✓
Unnecessary Part: ✗

Section	Specific Part	Leader	Student	Donor
Guide	Blueprint	✓	✓	✓
Home	KPIs, guidance…	✓	✓	✓
SDG Research Landscape	Coverage, Theme Role, CAGR, Strengths…	✓	✓	✓
	Compare Universities (SDG)	✓	✗	✗
Research Impact	Journal Trends	✓	✗	✗
	Compare Universities (Journal Trends)	✓	✗	✗
	Department Insights	✓	✗	✗
SDG Articles Explorer	Publications Directory	✗	✓	✗
Faculty Impact	Faculty Profiles	✓	✓	✗
	Faculty Personal Information Page	✗	✓	✗
	Network Graph	✗	✓	✗
Donor Impact	KPIs	✓	✗	✓
	SDG Overview	✓	✗	✓
	Success Stories	✓	✗	✓
	Universities	✗	✗	✓
	Geography	✗	✗	✓
	Impact Simulator	✓	✗	✓

Blueprint of Users' Journey - Clicking Sections

Leader

Assess the position of Gies general, SDG research & attract external funding

Step1: Assess Gies's research situation
- Guide (Blueprint)+Home(KPIs...)
- SDG Research Landscape-SDG Theme Role Analysis, SDG Growth Analysis (CAGR) Analysis, etc.
- Donor Impact –SDG Overview
- Faculty Impact-Faculty Influence & SDG Performance
- Research Impact

Step2: Strategic Benchmarking
- SDG Research Landscape – Compare Universities
- Research Impact – Journal Trend – Compare Universities

Step3: Performance Identification
- Faculty Impact-Faculty Directory, Personal Information Page
- Research Impact-Department Insights

Step4: Narrative Validation
- Donor Impact-Success Stories

Step5: Simulated Outcome Assessment
- Donor Impact-Impact Simulator

Step6: Resource Prioritization & Final Verification
do cross-check; do final decision

Student

Find the most interested and appropriate professor

Step1: Overview + Understanding SDG Strengths
- Guide+Home+SDG Research Landscape(similar to Leader's step1)

Step2: Article Exploration
- SDG Articles Explorer

Step3: Faculty Identification
- Faculty Impact-Faculty Directory

Step4: Faculty Identifying in detail
- Faculty Impact-Personal Information Page

Donor

Find the most profitable SDG goal

Step1: Identify High-Impact SDG Goals
- Guide+Home (similar to leader's step1)
- Donor Impact-KPIs, etc.

Step2: Evaluate Potential Impact
- Donor Impact- Impact Simulator

Step3: Review Proven Success Stories
- Donor Impact- Sucess Stories

Step4: Explore State-Level SDG Performance
- Donor Impact- Geography

Leader's journey - 6 Steps Overview

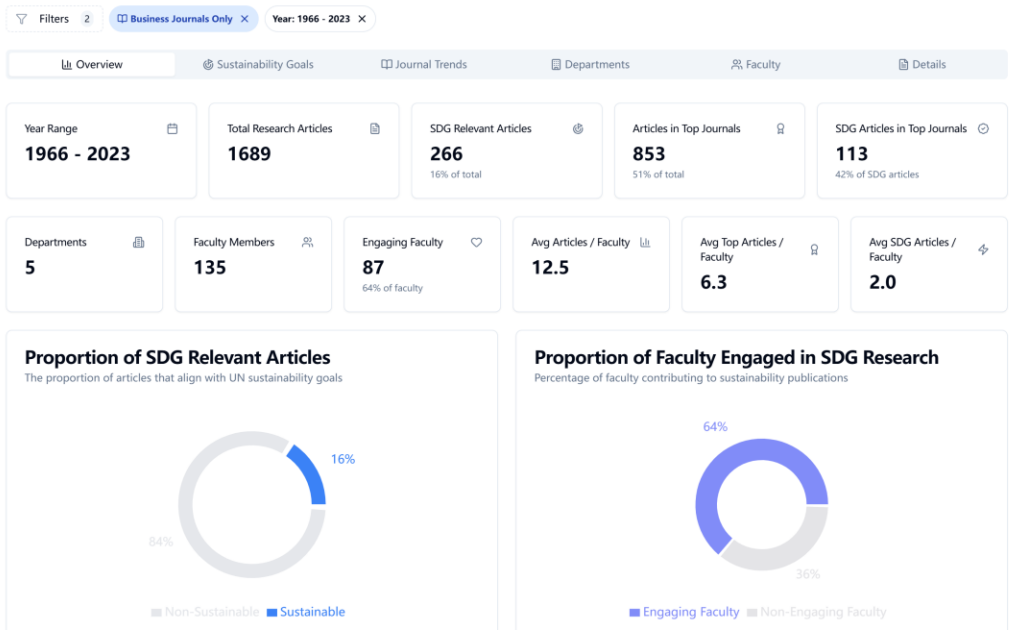

Step 1 - Assess Gies's research situation
Step 2 - Strategic Benchmarking
Step 3 - Performance Identification
Step 4 - Narrative Validation
Step 5 - Simulated Outcome Assessment
Step 6 - Resource Prioritization & Final Verification

Leader's journey

Step1-assess Gies's research situation

1. Leader wants to see the overview of Gies.

But too much KPI, can't find the key point

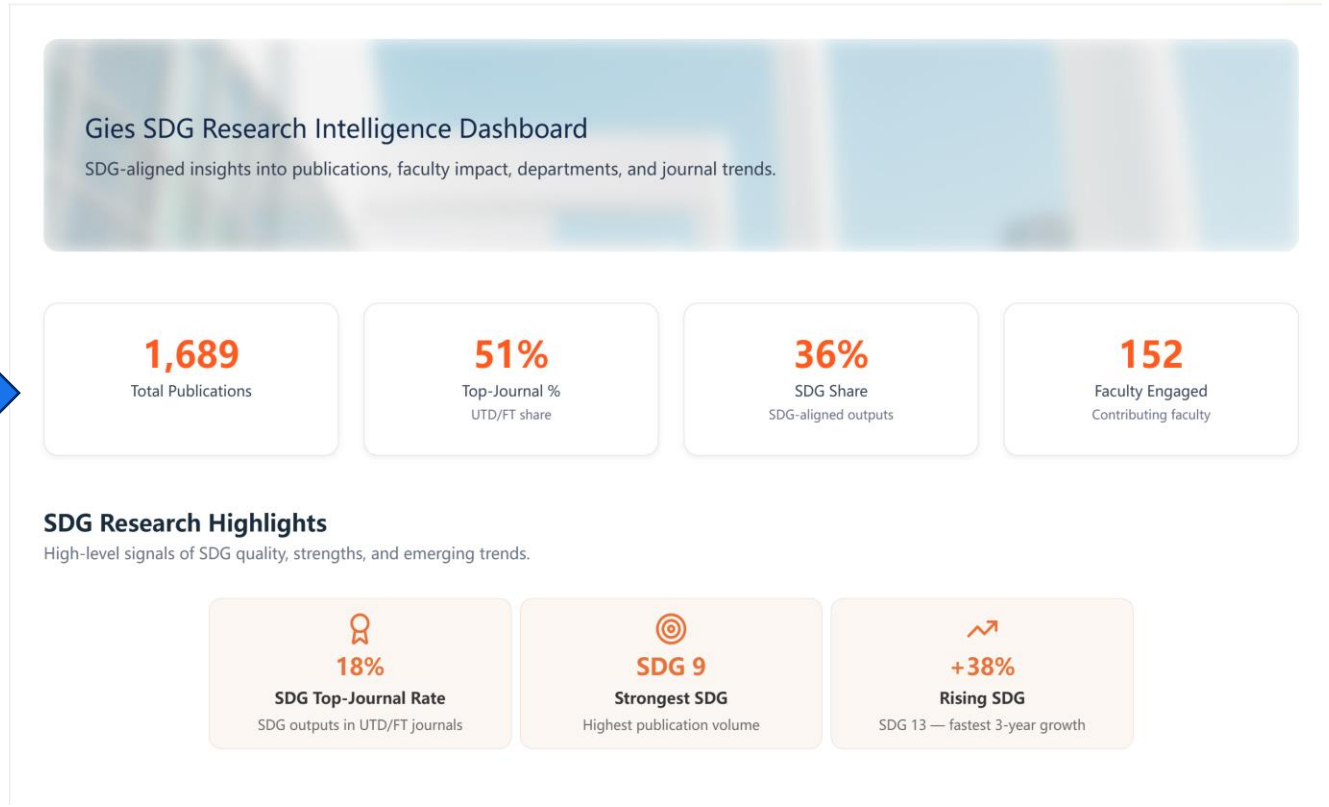

In "Home" page:

Add 4 key KPI –can see the whole situation at a glance.

Add 3 SDG KPI-can see SDG key points

-get overview from the first page without see too much KPI

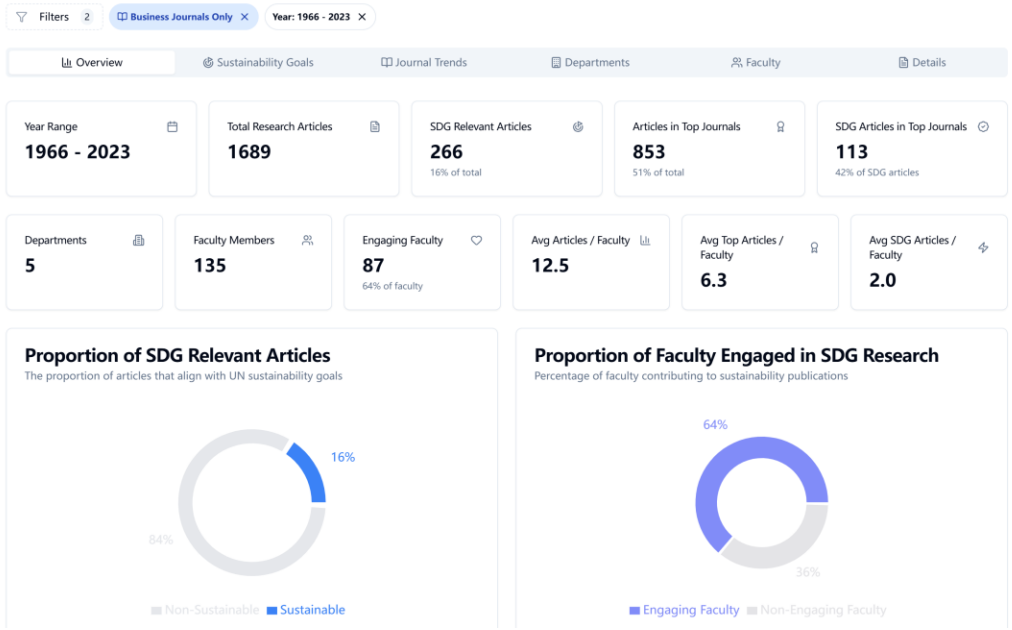

Leader's journey

Step1-assess Gies's research situation

1. Leader wants to see the overview of Gies.

But too much KPI, can't find the key point

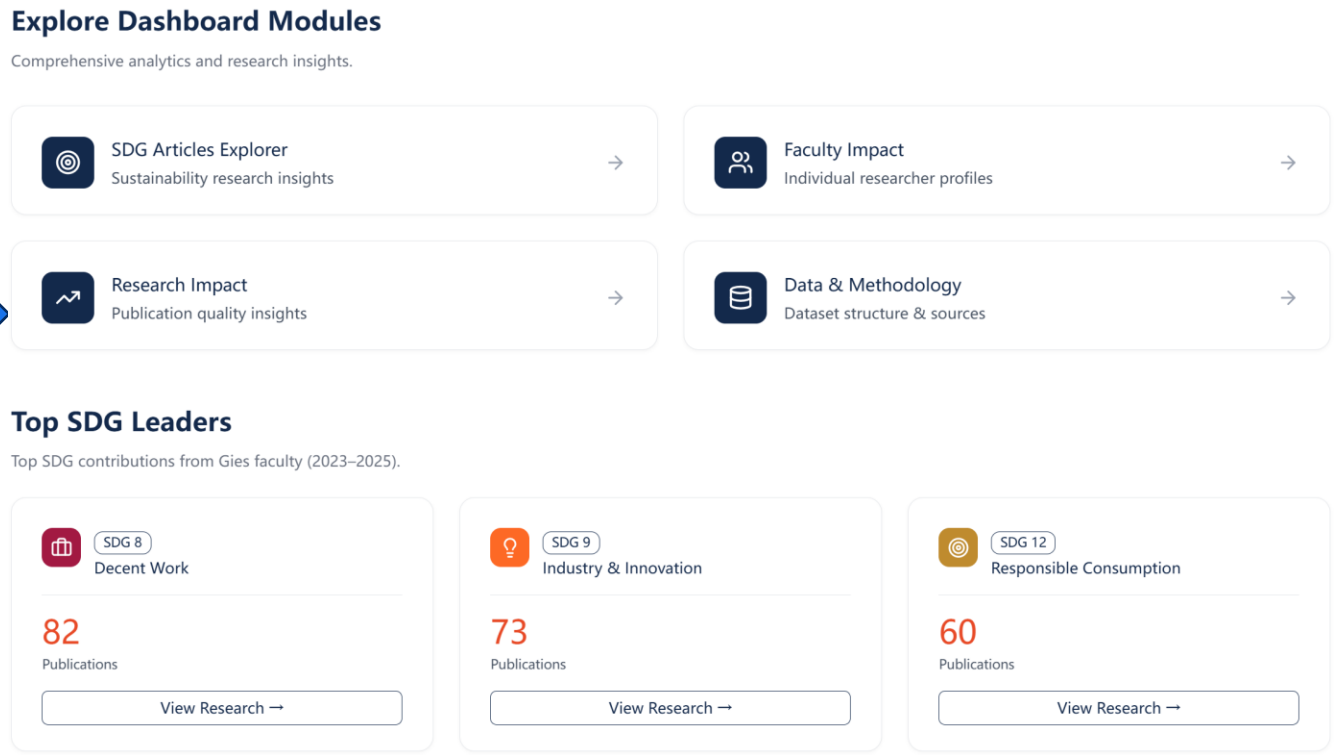

In "Home" page:

Add "Explore Dashboard Modules"

-can go to the pages with comprehensive analytics and insights directly

Add "Top SDG Leaders"

-can find the top SDG contributions from Gies faculty at the first glance

Leader's journey

Step1-assess Gies's research situation

2. Leader wants to see the position of each SDG goal, but can't find.

The bar chart should have more insights.

Add "SDG Research Landscape" Page
-show the comprehensive analytics of SDG of Gies

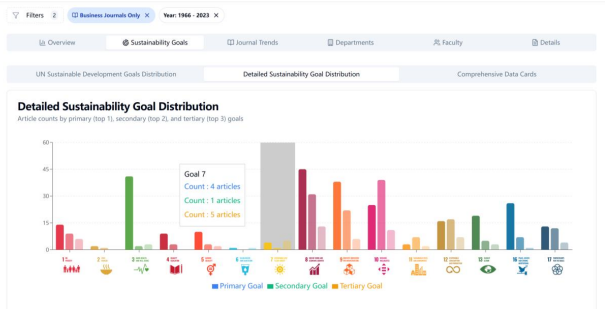

In "SDG Research Landscape" Page:

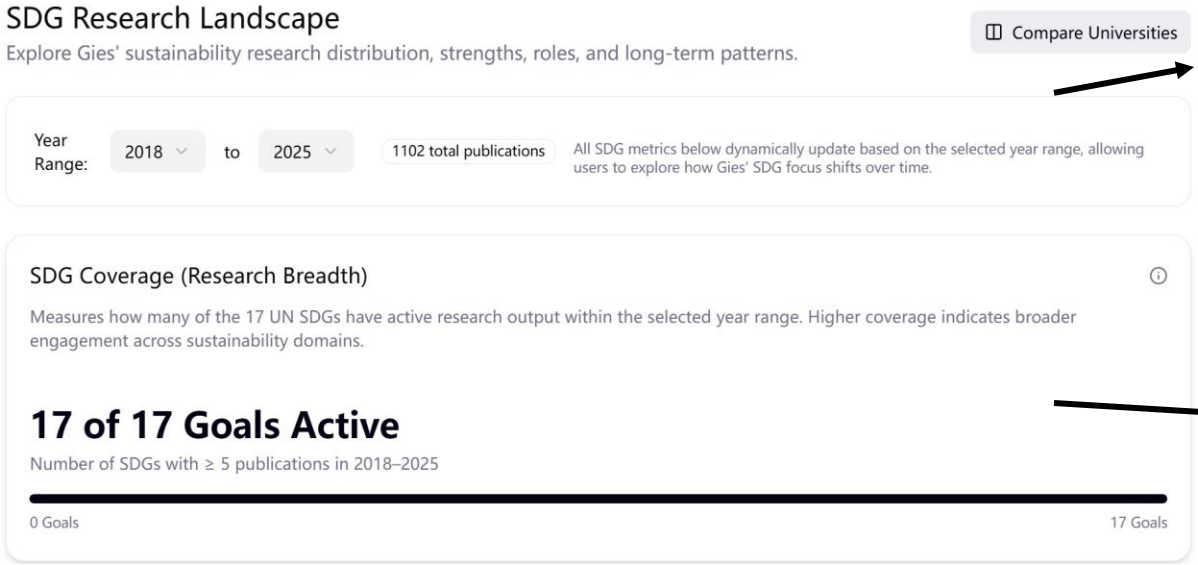

- Add a time filter

-can explore how Gies' SDG focus shifts over time

- Add SDG Coverage (Research Breadth)

-measures how many of the 17 SDGs have active research output within the selected year range. Higher coverage indicates broader engagement across sustainability domains

Time filter updated based on the selected year range

SDG Coverage (Research Breadth)

Leader's journey

Step1-assess Gies's research situation

2. Leader wants to see the position of each SDG goal, but can't find.

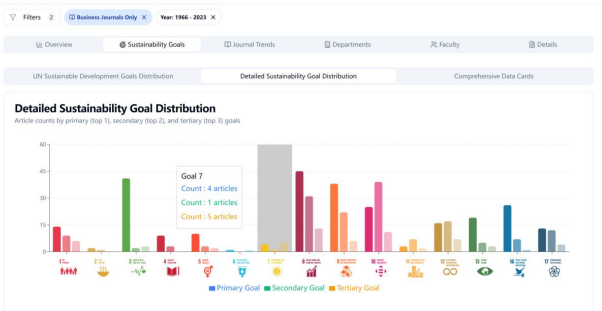

The bar chart should have more insights.

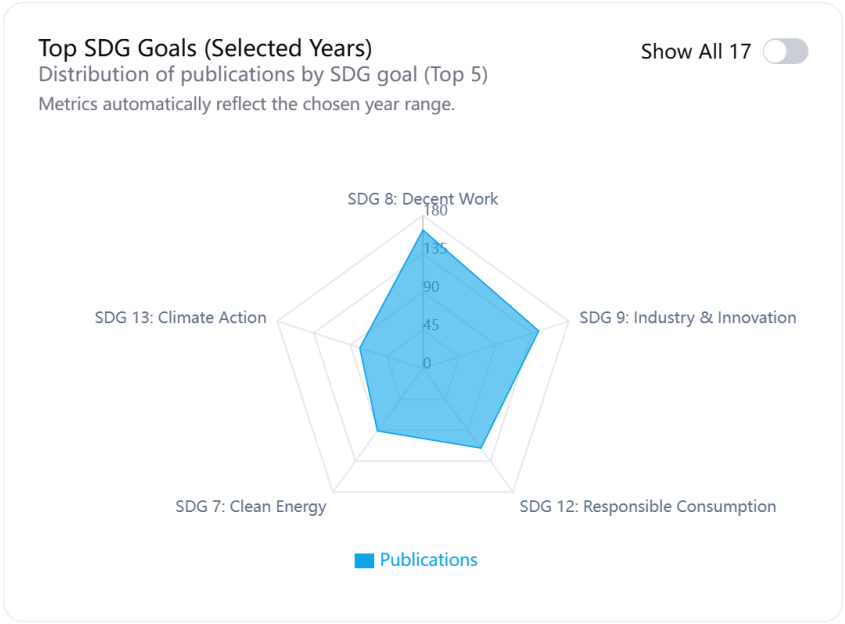

Add "SDG Research Landscape" Page
-show the comprehensive analytics of SDG of Gies

In "SDG Research Landscape" Page:

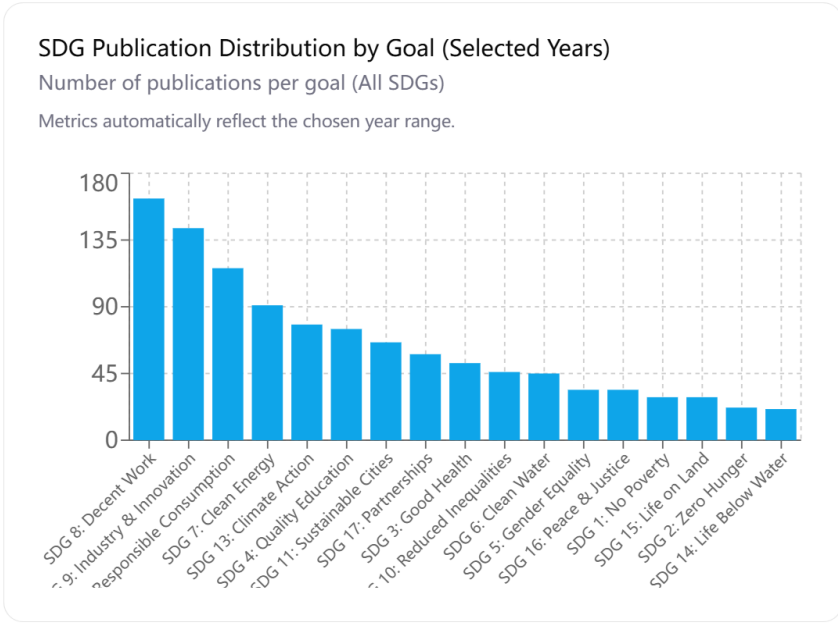

- Create "SDG Strength Analytic" part

-show the publication distribution across top-performing goals

Top SDG Goals

SDG Publication Distribution by Goal

Leader's journey

Step1-assess Gies's research situation

2. Leader wants to see the position of each SDG goal, but can't find.

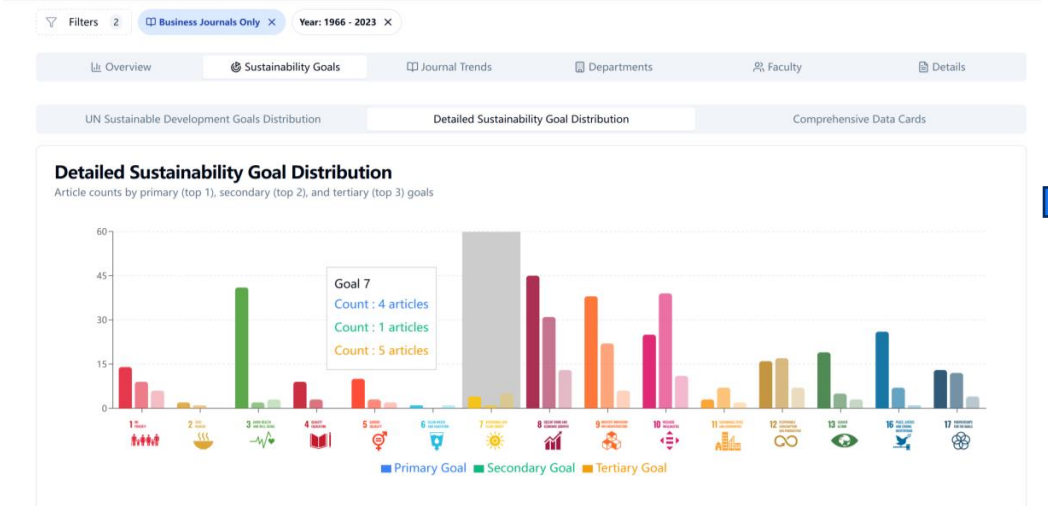

The bar chart should have more insights.

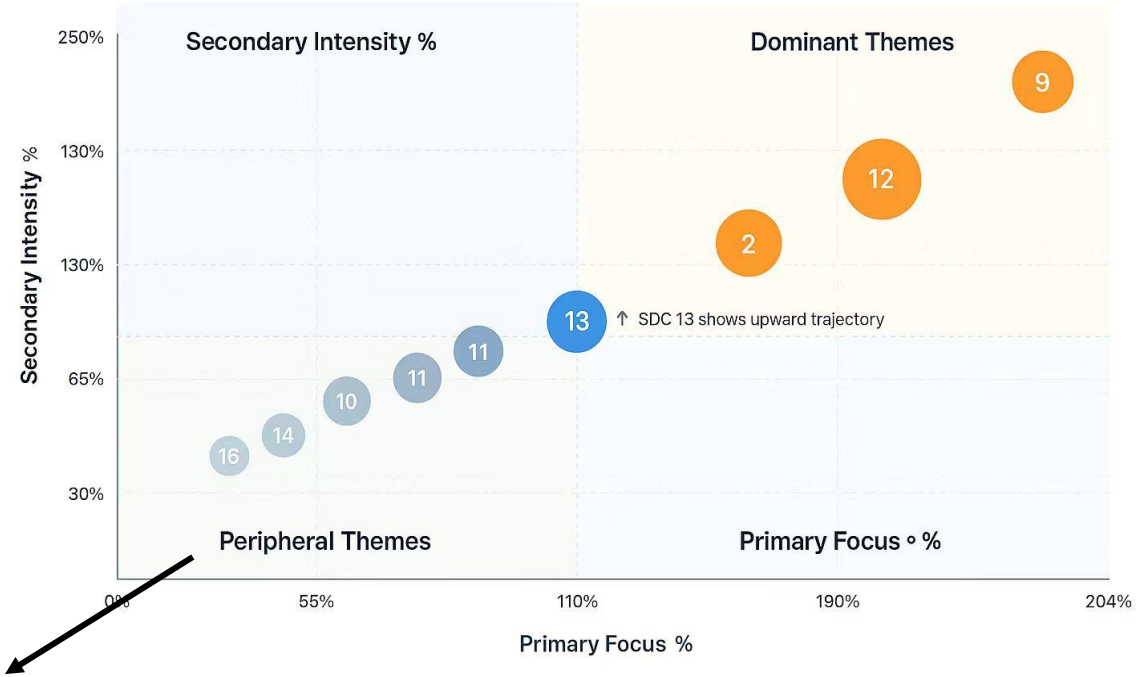

Add "SDG Research Landscape" Page
-show the comprehensive analytics of SDG of Gies

In "SDG Research Landscape" Page:

- Create two new four-quadrant diagrams

-show the stragitic position of each goal.
(calculation based on percentage of primary, secondary theme)

SDG Theme Role Analysis

Core Strengths Emerging Themes Supporting Themes Peripheral Thernes

Leader's journey

Step1-assess Gies's research situation

2. Leader wants to see the position of each SDG goal, but can't find.

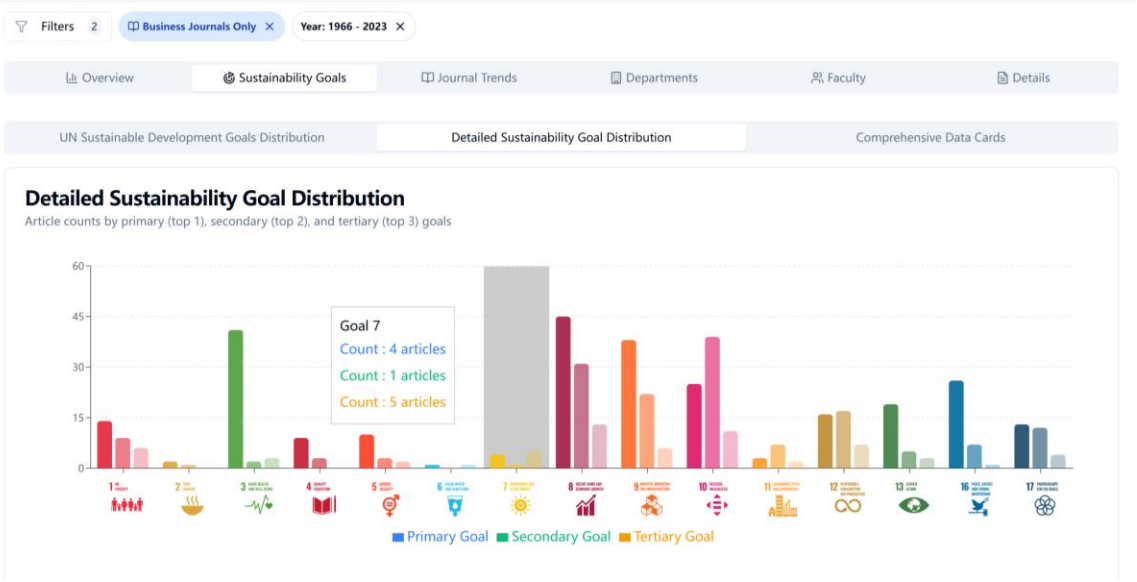

The bar chart should have more insights.

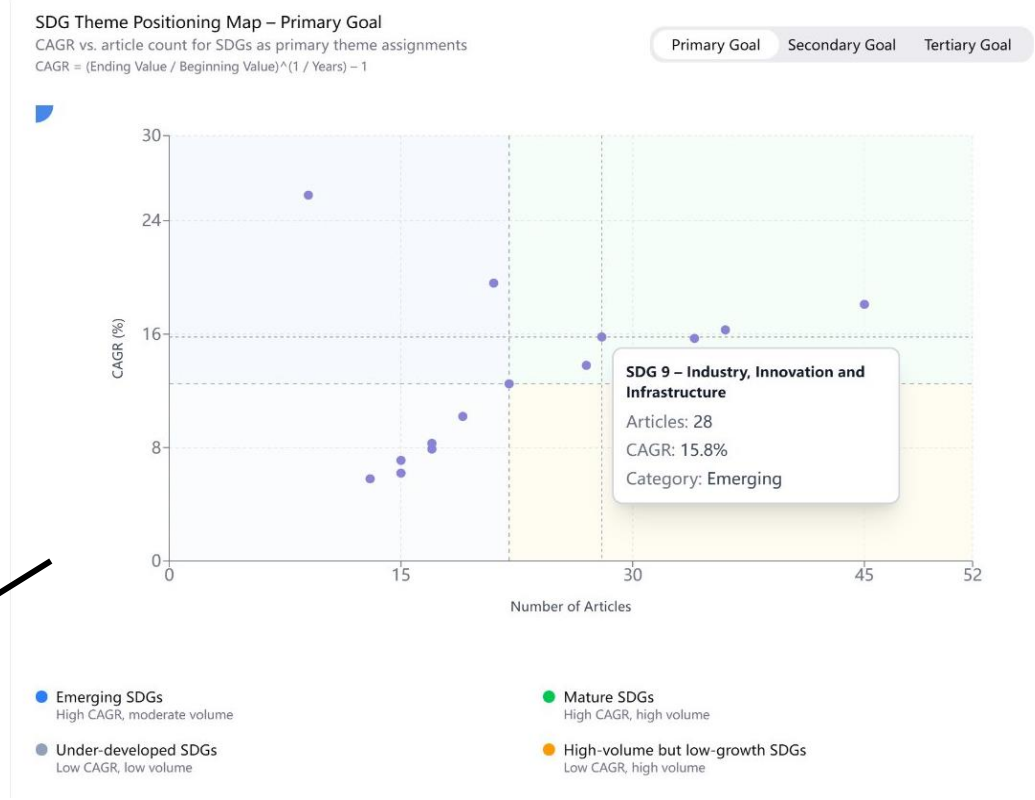

Add "SDG Research Landscape" Page
-show the comprehensive analytics of SDG of Gies

In "SDG Research Landscape" Page:

- Create two new four-quadrant diagrams

-show the stragitic position of each goal.
(calculation based on percentage of primary, secondary theme)

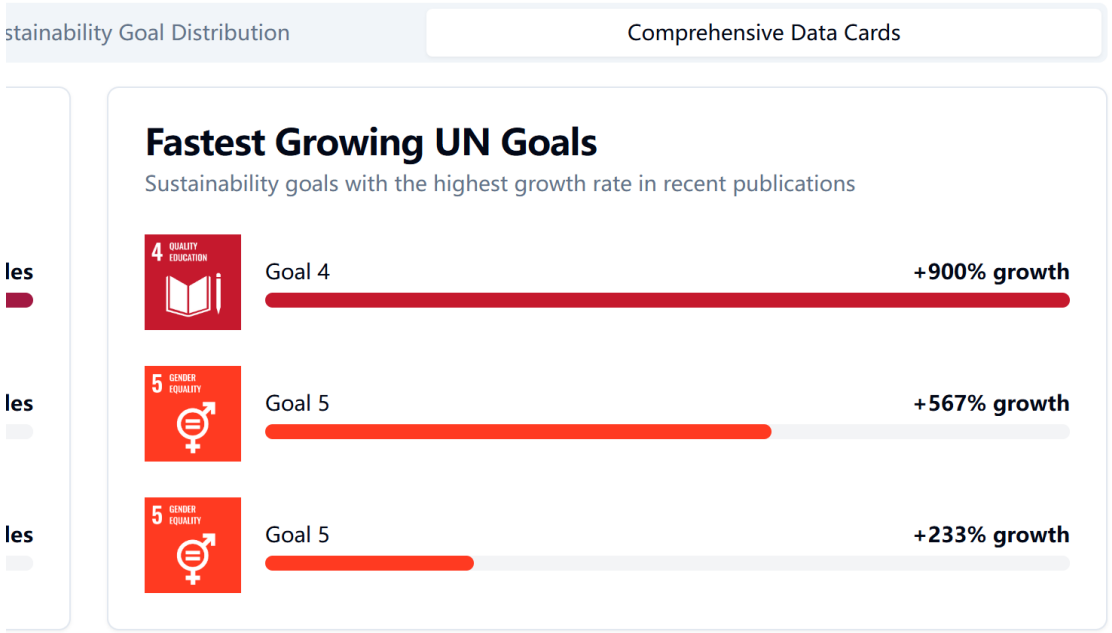

SDG Maturity & Momentum Analysis

Leader's journey

Step1-assess Gies's research situation

3. Learder wants to see the growth of each goal.

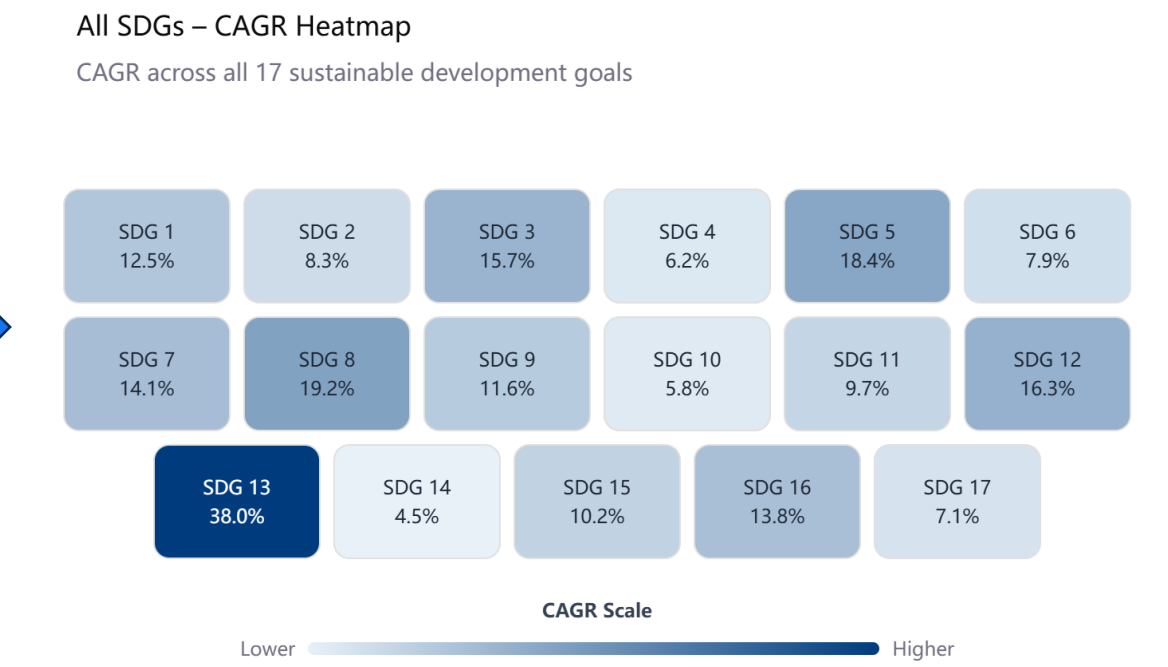

The card does not give enough info.

In "SDG Research Landscape" Page:

- Add the "SDG Growth Analysis (CAGR)" by heatmap

-use color shade to see which is fast or slow.

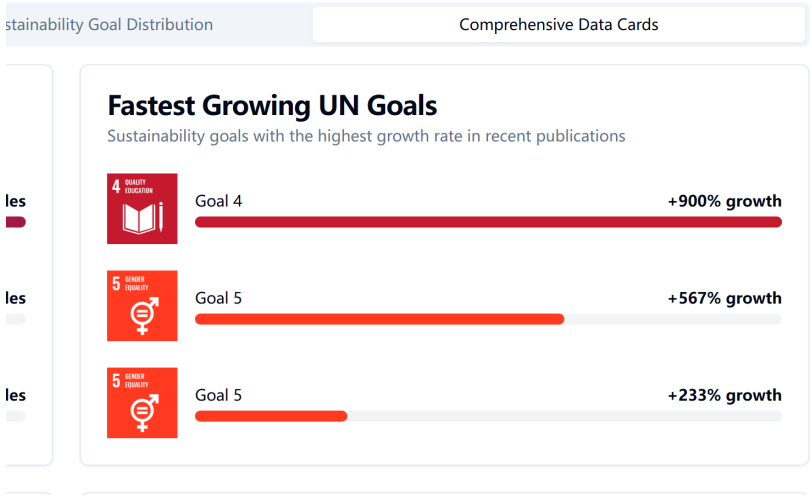

Leader's journey

Step1-assess Gies's research situation

3. Learder wants to see the growth of each goal.

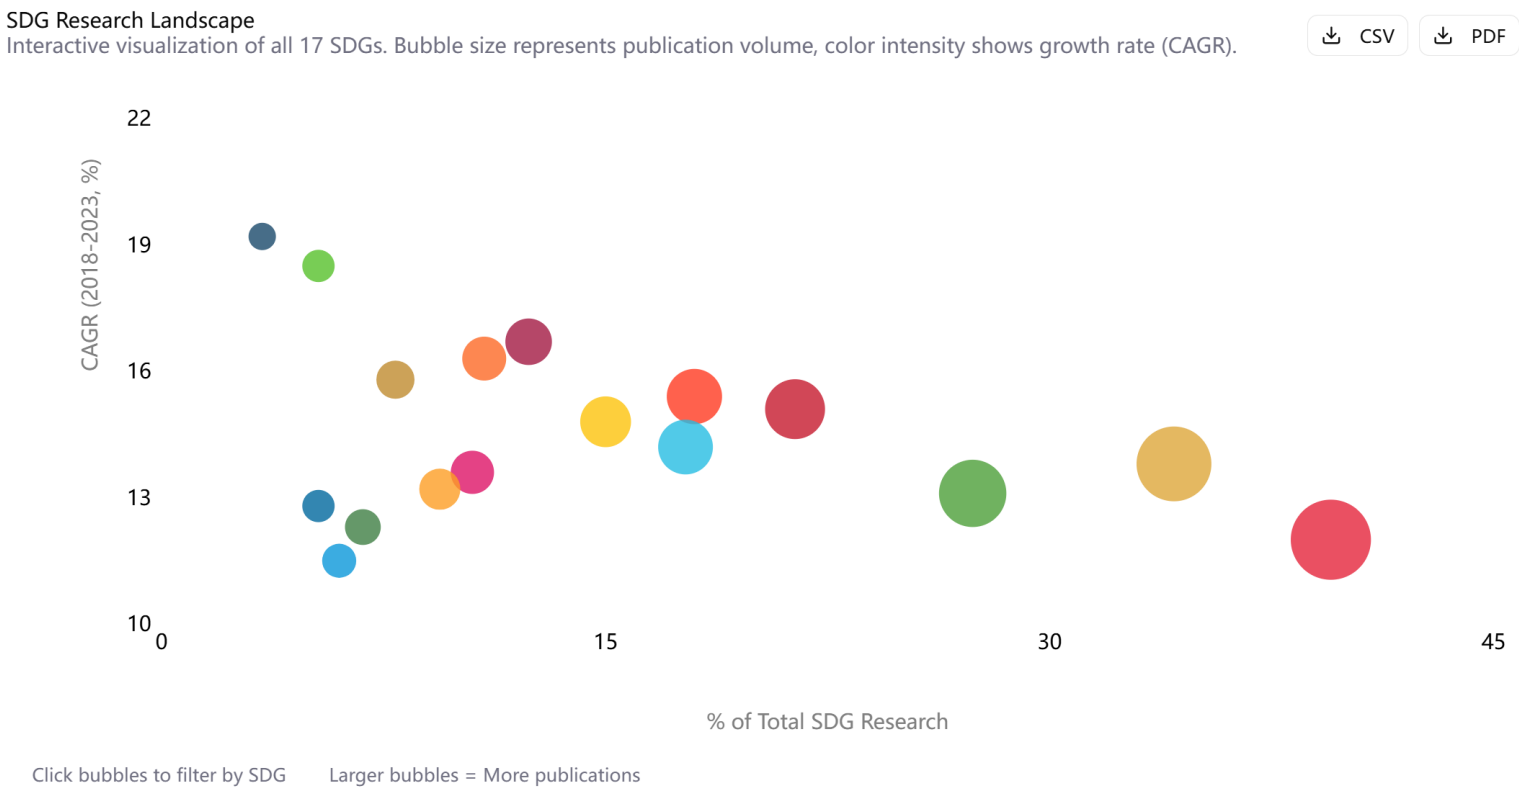

The card does not give enough info.

In "Donor Impact" Page:

- Add the CAGR% of each goal by bubble chart

-use bubble size represents publication volume, color intensity shows growth rate (CAGR).

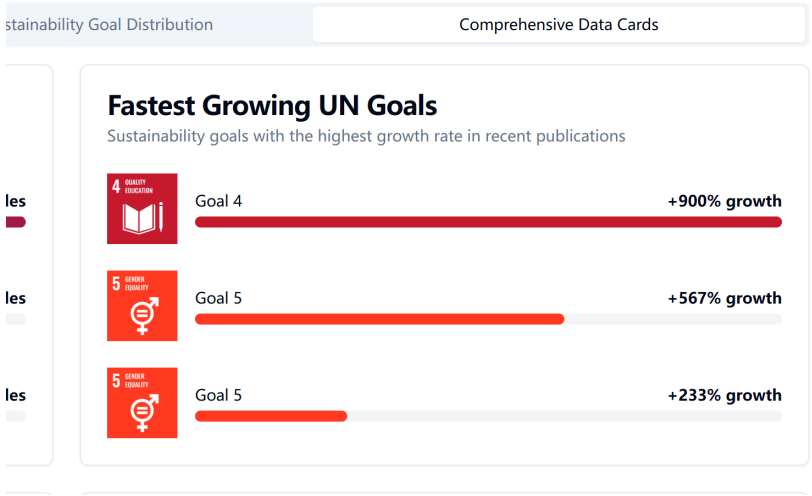

Leader's journey

Step1-assess Gies's research situation

3. Learder wants to see the growth of each goal.

The card does not give enough info.

In "SDG Research Landscape" Page:

- Add "SDG Publication Breakdown" part -show the rankings updating automatically based on the selected year range.

Detailed SDG Breakdown (Selected Years)

All SDG goals for 2018–2025

Metrics automatically reflect the chosen year range.

Rank	SDG Goal	Publications (Start → End)	Percentage	CAGR %	Primary Theme Count	Secondary Theme Count	T	Tertiary Theme Count
1	SDG 8: Decent Work	12 → 31	14.8%	+14.5%	29	19		6
2	SDG 9: Industry & Innovation	10 → 28	13%	+15.8%	26	19		9
3	SDG 12: Responsible Consumption	8 → 23	10.5%	+16.3%	24	13		5
4	SDG 7: Clean Energy	6 → 18	8.3%	+17.0%	31	11		8
5	SDG 13: Climate Action	5 → 16	7.1%	+18.1%	24	16		4
6	SDG 4: Quality Education	5 → 15	6.8%	+17.0%	16	16		11
7	SDG 11: Sustainable Cities	4 → 14	6%	+19.6%	12	23		13
8	SDG 17: Partnerships	3 → 13	5.3%	+23.3%	17	23		8
9	SDG 3: Good Health	3 → 10	4.7%	+18.8%	10	18		13
10	SDG 10: Reduced Inequalities	3 → 9	4.2%	+17.0%	14	25		5
11	SDG 6: Clean Water	3 → 9	4.1%	+17.0%	13	15		10
12	SDG 5: Gender Equality	2 → 7	3.1%	+19.6%	17	26		6
13	SDG 16: Peace & Justice	2 → 7	3.1%	+19.6%	7	9		16
14	SDG 1: No Poverty	2 → 6	2.6%	+17.0%	3	17		19
15	SDG 15: Life on Land	2 → 6	2.6%	+17.0%	6	8		15
16	SDG 2: Zero Hunger	1 → 4	2%	+21.9%	9	10		17
17	SDG 14: Life Below Water	1 → 5	1.9%	+25.8%	5	17		29

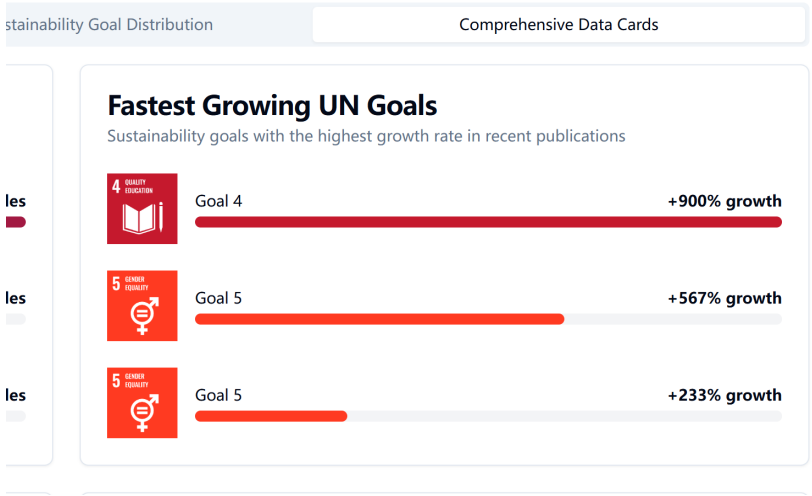

Rank automatically recalculates based on the selected year range and sorting preference.

Leader's journey

Step1-assess Gies's research situation

3. Learder wants to see the growth of each goal.

The card does not give enough info.

In "Donor Impact" Page:

- Add "SDG Publication Breakdown" part -show the rankings updating automatically based on the selected year range.

SDG Publication Breakdown

Comprehensive metrics for all 17 Sustainable Development Goals

Export CSV

SDG	Goal Name	Publications	% of Total	CAGR	Policy Impact	Trend
8	Decent Work	105	39.5%	12%	45	Stable
9	Industry & Innovation	91	34.2%	13.8%	52	Moderate
12	Responsible Consumption	73	27.4%	13.1%	38	Moderate
7	Clean Energy	57	21.4%	15.1%	41	High Growth
13	Climate Action	48	18%	15.4%	41	High Growth
4	Quality Education	47	17.7%	14.2%	28	Moderate
11	Sustainable Cities	40	15%	14.8%	35	Moderate
3	Good Health	33	12.4%	16.7%	38	High Growth
10	Reduced Inequalities	29	10.9%	16.3%	31	High Growth
6	Clean Water	28	10.5%	13.6%	24	Moderate
17	Partnerships	25	9.4%	13.2%	27	Moderate
5	Gender Equality	21	7.9%	15.8%	19	High Growth
1	No Poverty	18	6.8%	12.3%	15	Stable
16	Peace & Justice	16	6%	11.5%	21	Stable
2	Zero Hunger	14	5.3%	18.5%	22	High Growth
15	Life on Land	14	5.3%	12.8%	16	Stable
14	Life Below Water	9	3.4%	19.2%	12	High Growth

Leaders' Journey

Step1-assess Gies's research situation

4. Leaders want to learn the general trend of the articles in Gies

In "Research Impact" Page:

- Add **"Structural Research Ratios"** part with **three graphs**

-can understand sustainability intensity and research quality structure of different universities

But there are no data in the original dashboard

404 NOT FOUND

Graph1: SDG share of total output (SDG/Total)

Leaders' Journey

Step1-assess Gies's research situation

4. Leaders want to learn the general trend of the articles in Gies

In "Research Impact" Page:

- Add **"Structural Research Ratios"** with **three graphs**

-can understand sustainability intensity and research quality structure of different universities

But there are no data in the original dashboard

404 NOT FOUND

Graph2: SDG quality ratio (SDG - Top / SDG)

Leaders' Journey

Step1-assess Gies's research situation

4. Leaders want to learn the general trend of the articles in Gies

In "Research Impact" Page:

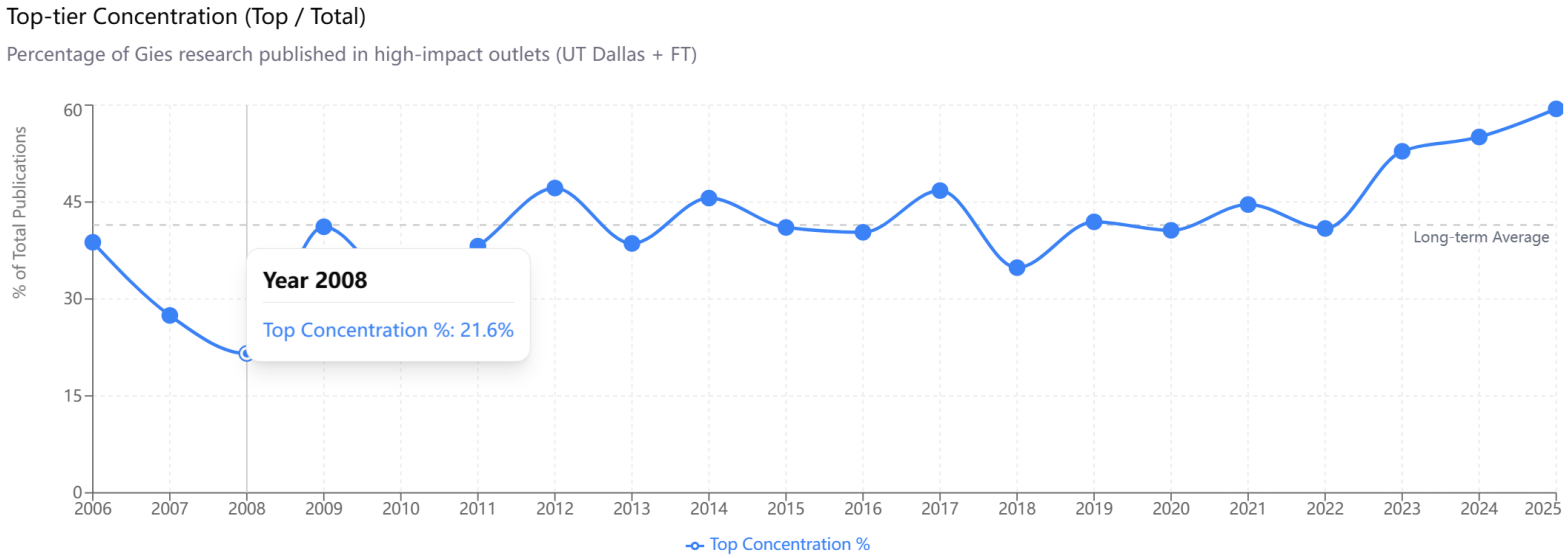

- Add "Structural Research Ratios" with three graphs

-can understand sustainability intensity and research quality structure of different universities

But there are no data in the original dashboard

404 NOT FOUND

Graph3: Top tier concentration (Top / Total)

Leaders' Journey

Step1-assess Gies's research situation

4. Leaders want to learn the general trend of the articles in Gies

In "Research Impact" Page:

- Add "Momentum & Structural Shifts" with three graphs

-can measure year-over-year changes in sustainability

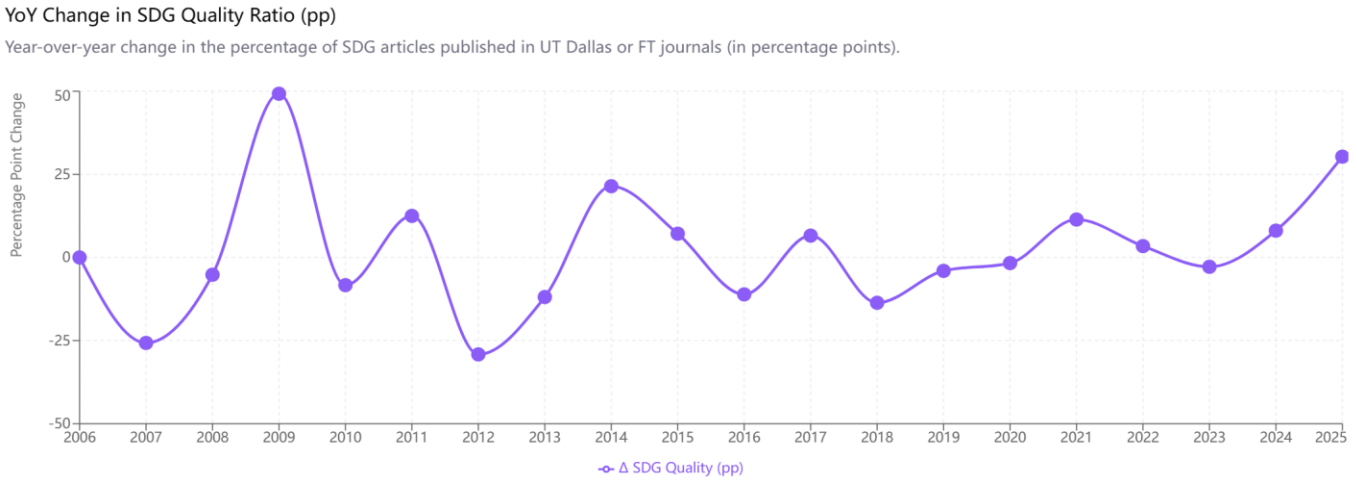

But there are no data in the original dashboard

404 NOT FOUND

Graph1: YoY Change in SDG Share (pp) (*pp means "current year-previous year")

Graph2: YoY Change in SDG Quality Ratio (pp)

Leaders' Journey

Step1-assess Gies's research situation

4. Leaders want to learn the general trend of the articles in Gies

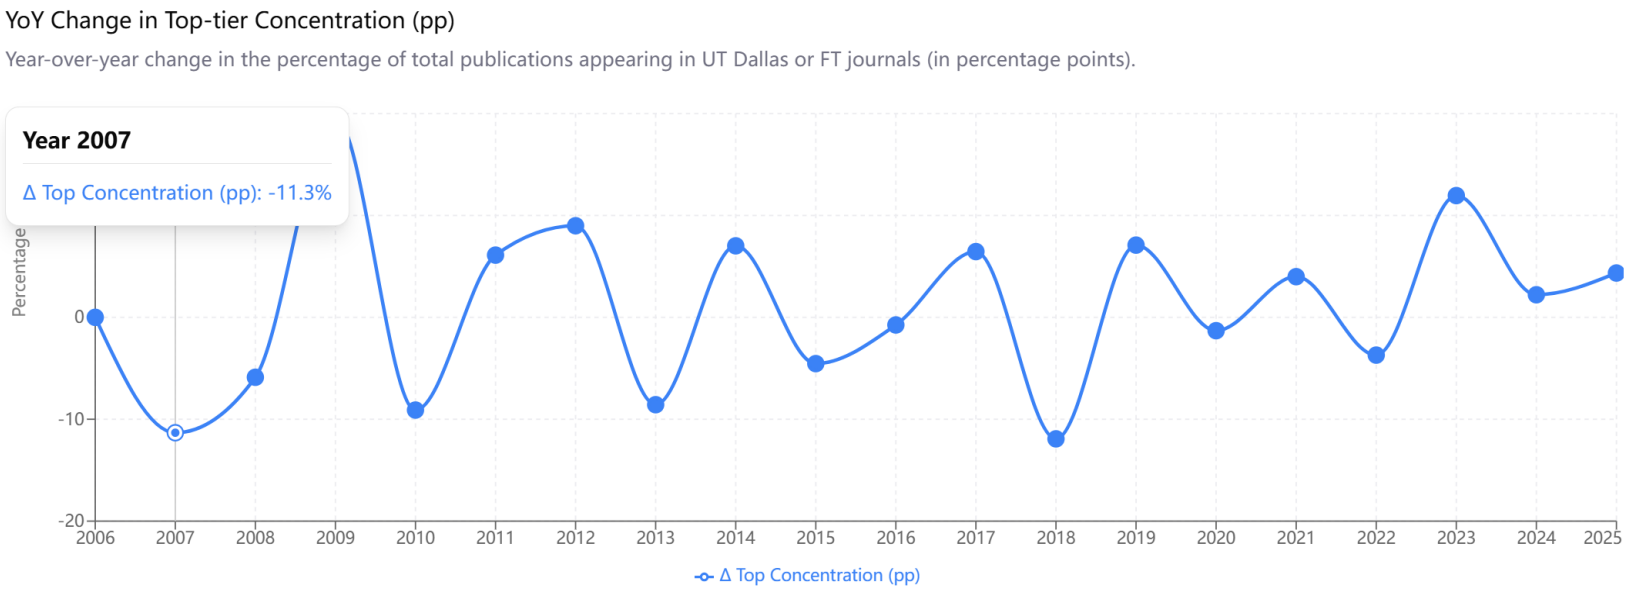

In "Research Impact" Page:

- Add **"Momentum & Structural Shifts"** with three graphs

-can measure year-over-year changes in sustainability research structure of different universities

But there are no data in the original dashboard

404 NOT FOUND

YoY Change in Top-tier Concentration (pp)

Leaders' Journey

Step2-Strategic Benchmarking

Leaders want to compare the academic outputs of Gies with other universities

There are data of Gies but no data of other universities, leaders can't compare Gies with other universities

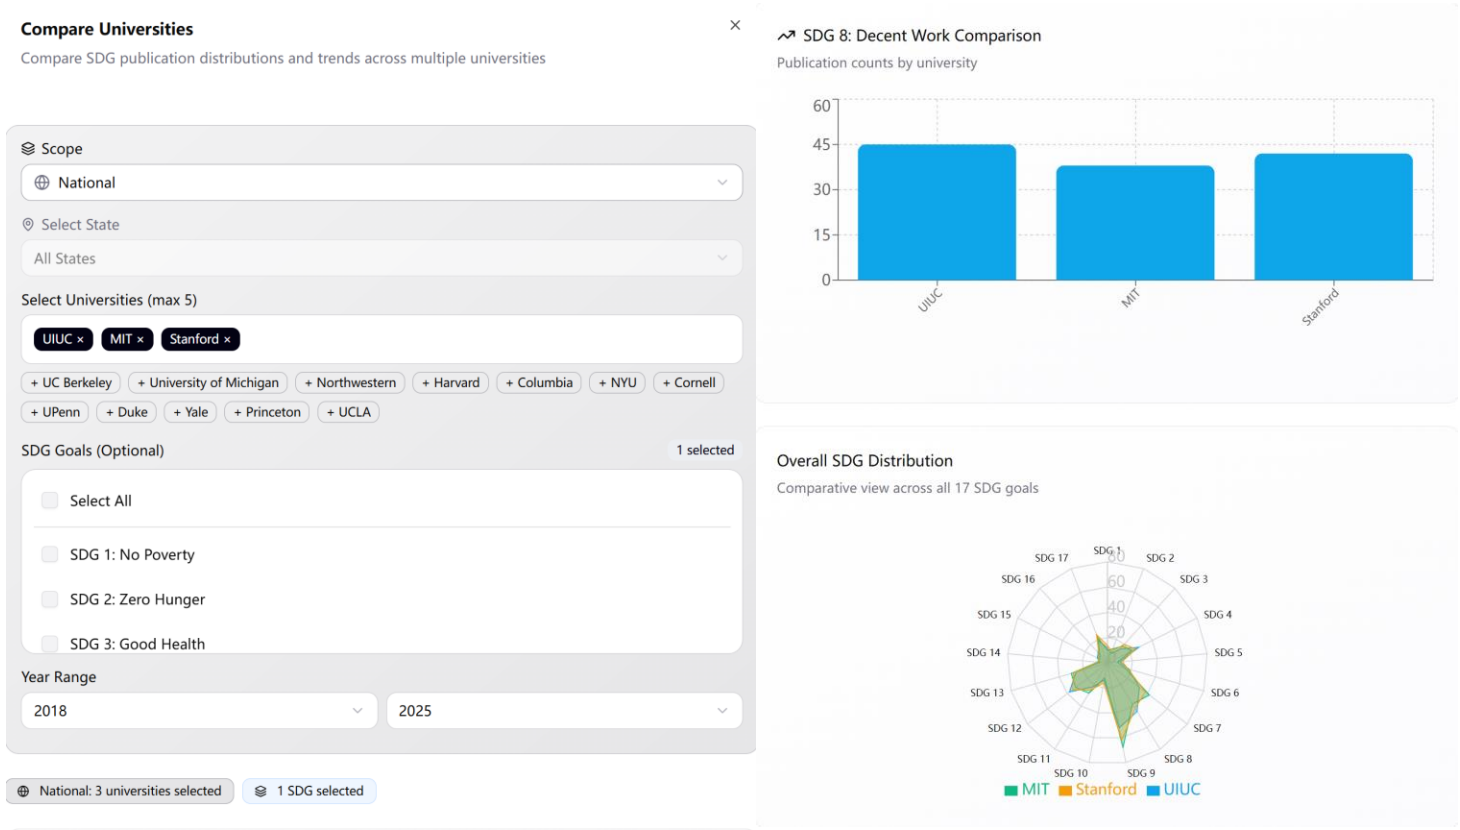

404 NOT FOUND

In "SDG Research Landscape" Page:

- Add a **"Compare Universities"** (university filter)

& Import the data of other universities

-can compare SDG publication distributions and trends across multiple universities

Leaders' Journey

Step2-Strategic Benchmarking

Leaders want to compare the academic outputs of Gies with other universities

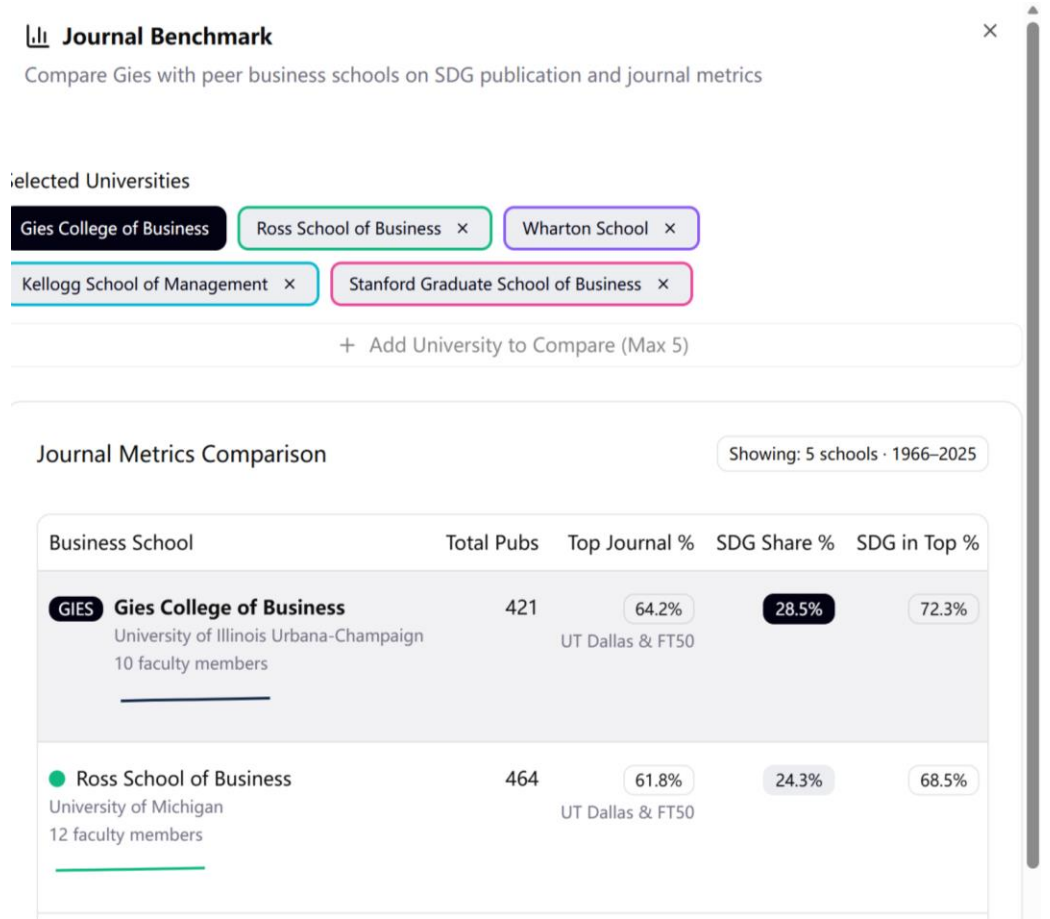

There are data of Gies but no data of other universities, leaders can't compare Gies with other universities

404 NOT FOUND

In "Research Impact" Page:

- Add a "Compare Universities" (university filter) & Import the data of other universities

-can identify the difference of academic strengths between Gies and other universities

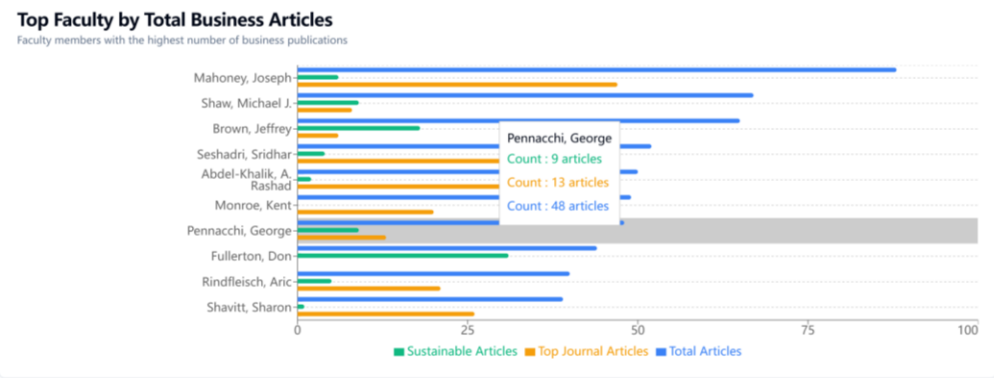

Leaders' Journey

Step 3 - Performance Identification

1. Leaders want to identify which faculty is worthy to being funded for the SDG

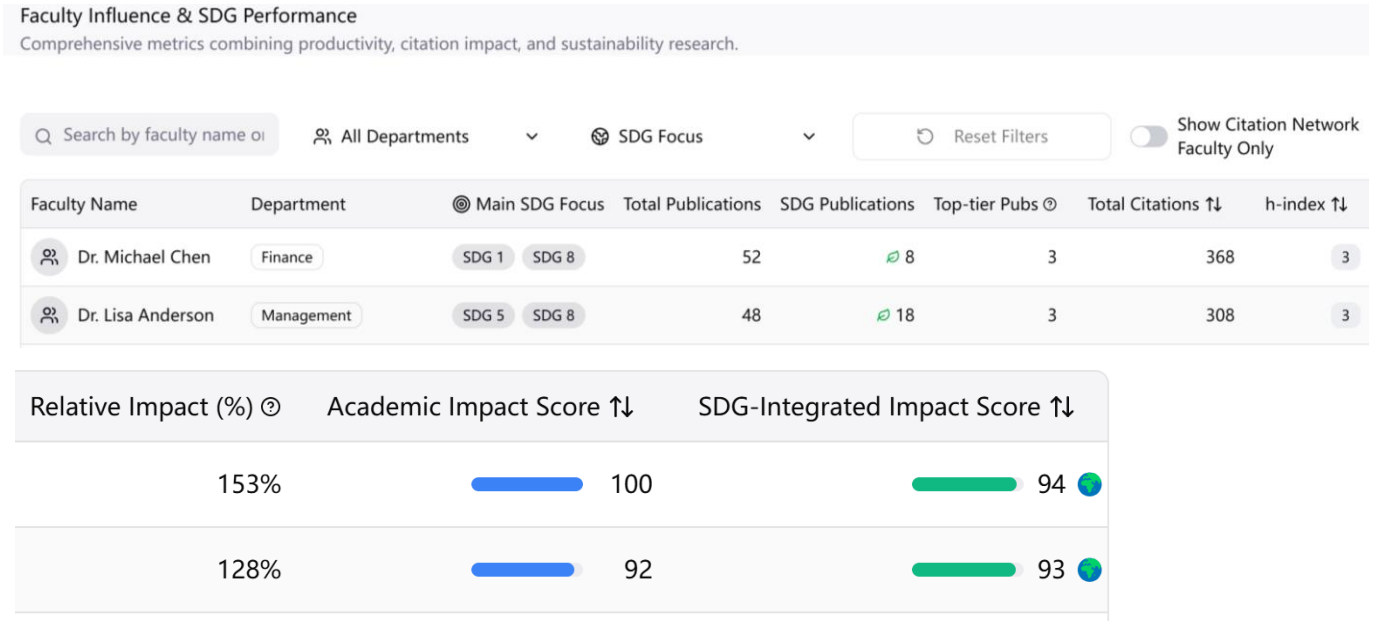

The bar chart shows the top 10 professors with the highest number of total articles.

Redesign **"Faculty Impact" part**, showing the list of faculty according to the impact score and SDG impact score.

- the academic impact score- the overall influence level of all the faculty's articles
- the SDG-Intergrated impact score- the overall influence level of the faculty's SDG-related articles)

-can identify the faculty ability on SDG reseach generally

Leaders' Journey

Step 3 - Performance Identification

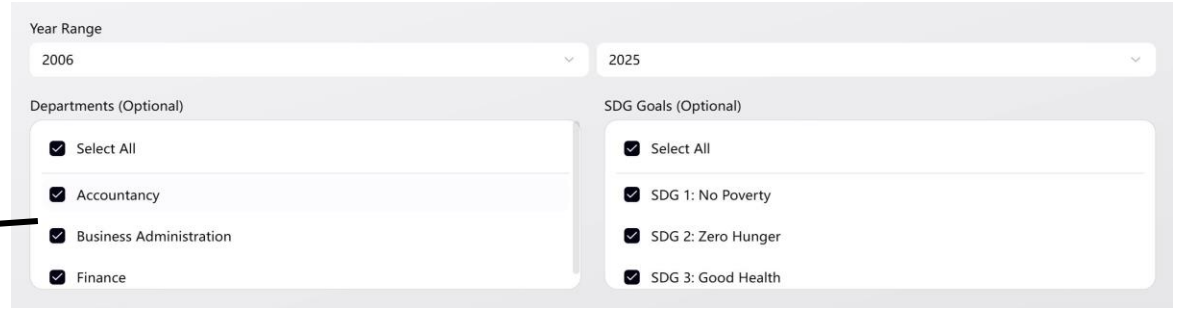

2. Leaders want to identify which department is worthy to being funded for the SDG

In "Research Impact" Page:

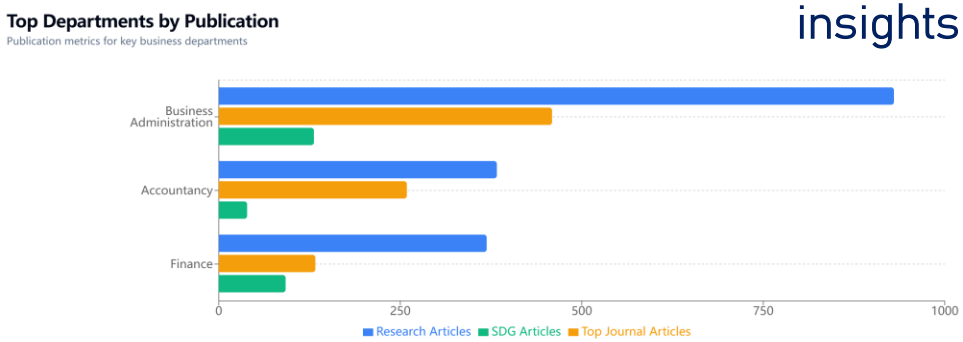

- Redesign the **"department insights"** part, add "Department Research Performance" part with three more detailed graphs
- add an **SDG filter**

-can evaluate departmental productivity and publication quality metrics across total and top-tier journals

The bar chart shows the top 3 departments with the highest number of research articles.

SDG filter on the top of the "department insights" part

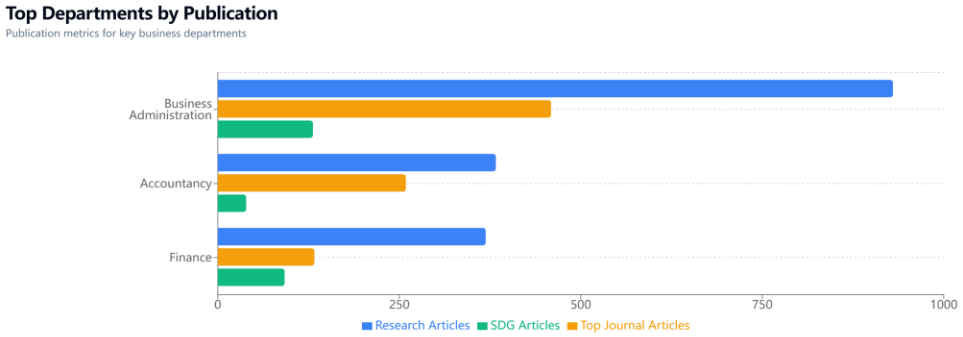

Graph1: Department Publication Output
-shows the different shares of different journal tiers of publication according to department

Leaders' Journey

Step 3 - Performance Identification

2. Leaders want to identify which department is worthy to being funded for the SDG

The bar chart shows the top 3 departments with the highest number of research articles, but not SDG articles.

Can be filtered by SDG Filter

In "Research Impact" Page:

Redesign the **"department insights"** part

- add "Department Research Performance" part with three more detailed graphs

Graph2: Top-tier Publication Share -shows the percentage of publications in top-tier journals according to department

Leaders' Journey

Step 3 - Performance Identification

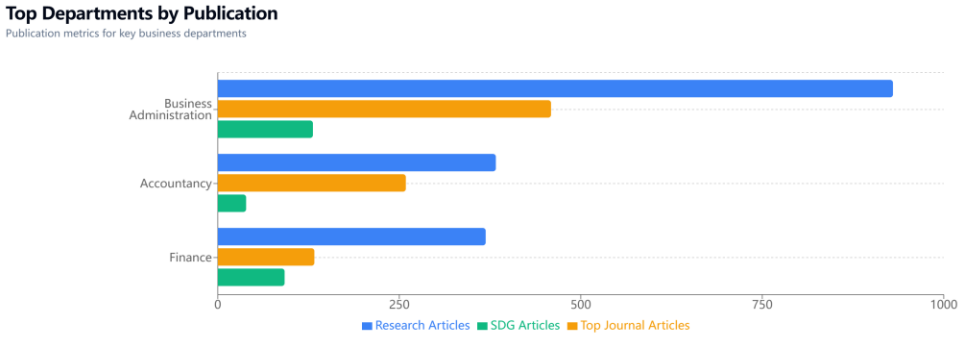

2. Leaders want to identify which department is worthy to being funded for the SDG

In "Research Impact" Page:

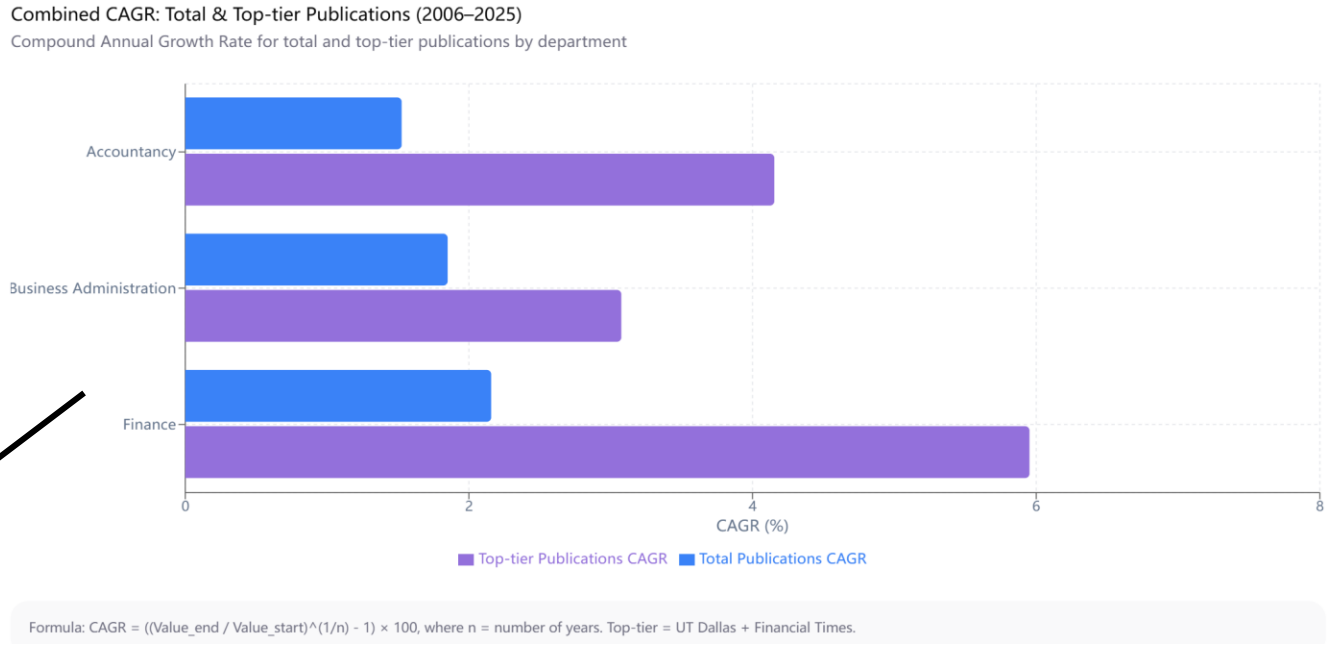

Redesign the **"department insights"** part

- add "Department Research Performance" part with three more detailed graphs

The bar chart shows the top 3 departments with the highest number of research articles, but not SDG articles.

Graph3: Combined CAGR: Total & Top-tier Publications -shows the Compound Annual Growth Rate for total and top-tier publications by department

Can be filtered by SDG Filter

Leaders' Journey

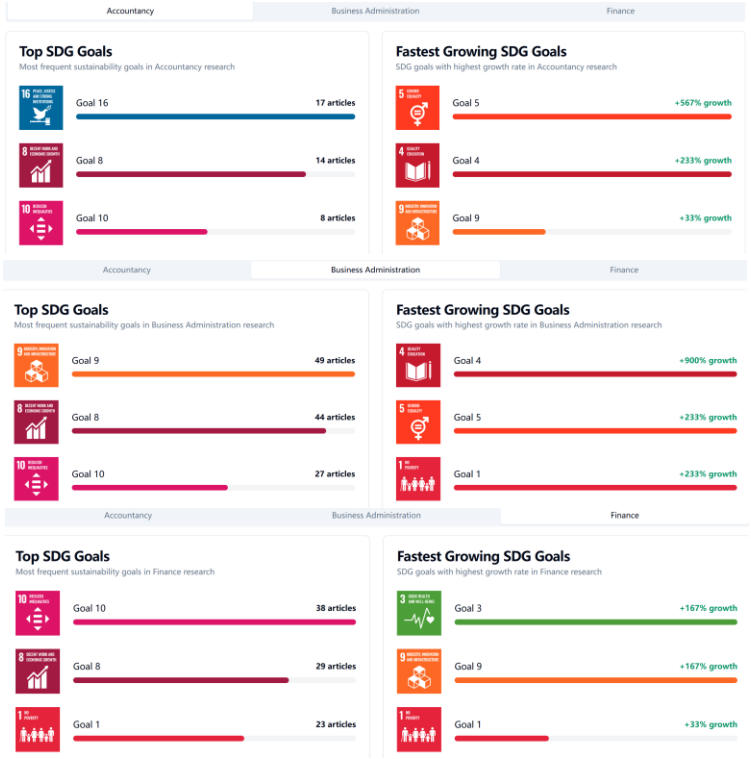

Step 3 - Performance Identification

2. Leaders want to identify which department is worthy to being funded for the SDG

In "Research Impact" Page:
Redesign the **"department insights"** part

- add **"Department SDG Research Performance"** part with three more detailed graphs

The graph only shows the 3 top SDG goals and fastest growing SDG goals

Graph1: SDG Publications by Department

Graph2: SDG Publication Share (%)

*All the graphs can be filtered by SDG Filter

Graph3: SDG Share Change (Δ, pp)

Leaders' Journey

Step 3 - Performance Identification

2. Leaders want to identify which department is worthy to being funded for the SDG

There are no data on department breakdown analysis

In "Research Impact" Page:

Redesign the "department insights" part

- add **"Department Breakdown Analysis"** part with three more detailed parts: "SDG Focus Breakdown", "Annual Trend Breakdown", "Contribution to Gies Total"

Part1: SDG Focus Breakdown - SDG Focus Heatmap

-it shows the visual representation of SDG specialization intensity by department with publication counts

SDG Focus Heatmap

Visual representation of SDG specialization intensity by department with publication counts

Department	SDG 3	SDG 7	SDG 8	SDG 9	SDG 10	SDG 11	SDG 12	SDG 13	SDG 16
Business Administration	7.7% (15 pubs)	13.4% (26 pubs)	11.9% (23 pubs)	2.6% (5 pubs)	10.3% (20 pubs)	14.9% (29 pubs)	12.9% (25 pubs)	11.3% (22 pubs)	2.1% (4 pubs)
Accountancy	4.4% (4 pubs)	4.4% (4 pubs)	18.9% (17 pubs)	4.4% (4 pubs)	3.3% (3 pubs)	7.8% (7 pubs)	37.8% (34 pubs)	4.4% (4 pubs)	14.4% (13 pubs)
Finance	4.9% (2 pubs)	4.9% (2 pubs)	9.8% (4 pubs)	24.4% (10 pubs)	9.8% (4 pubs)	9.8% (4 pubs)	2.4% (1 pubs)	31.7% (13 pubs)	2.4% (1 pubs)

Color intensity represents the percentage of that department's SDG publications focused on each goal. Publication counts are shown in parentheses. Colors match official SDG palette.

Leaders' Journey

2. Leaders want to identify which department is worthy to being funded for the SDG

There are no data on department breakdown analysis

404 NOT FOUND

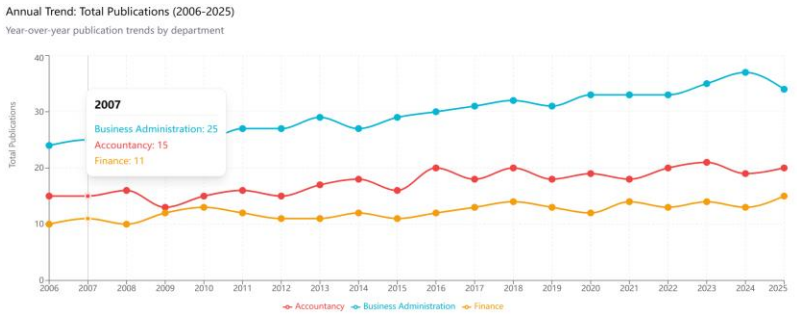

Step 3 - Performance Identification

In "Research Impact" Page:
Redesign the **"department insights"** part

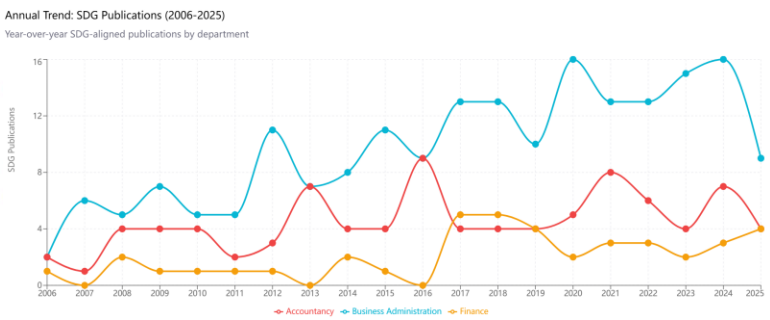

- add **"Department Breakdown Analysis"** part with three more detailed parts: "SDG Focus Breakdown", "Annual Trend Breakdown", "Contribution to Gies Total"

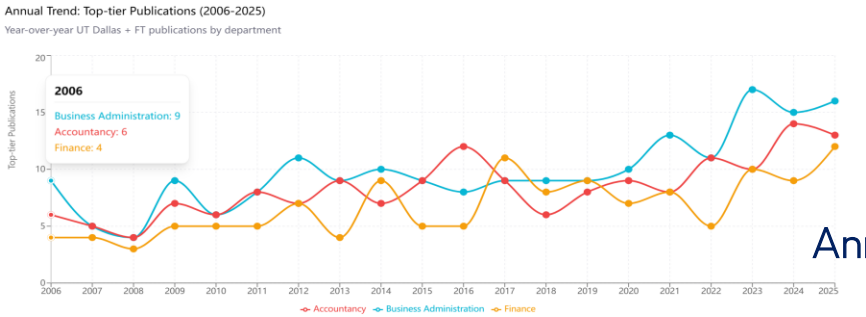

Part2: Annual Trend Breakdown

Annual Trend: Total Publications

Annual Trend: SDG Publications

Annual Trend: Top-tier Publications

Leaders' Journey

Step 3 - Performance Identification

2. Leaders want to identify which department is worthy to being funded for the SDG

There are no data on department breakdown analysis

404 NOT FOUND

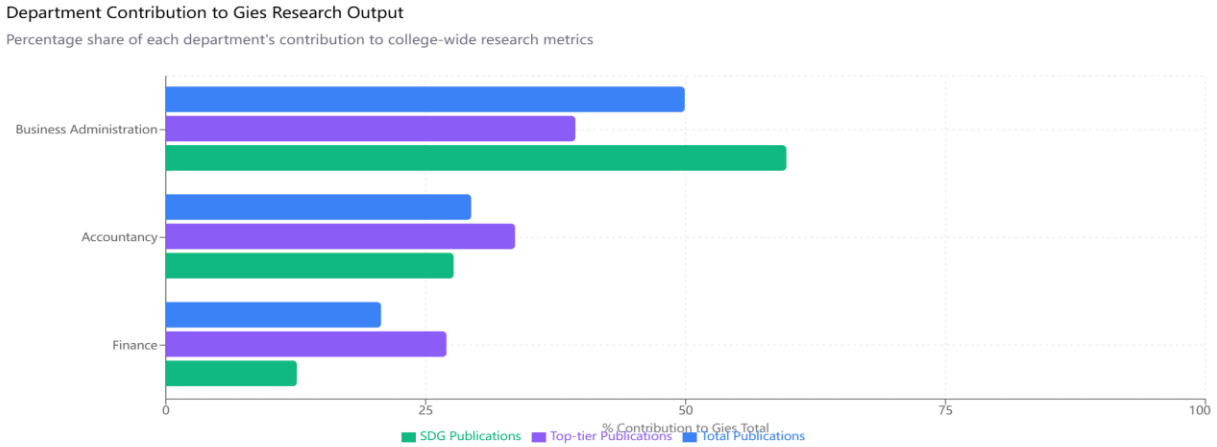

In "Research Impact" Page:

Redesign the **"department insights"** part

- add **"Department Breakdown Analysis"** part with three more detailed parts: "SDG Focus Breakdown", "Annual Trend Breakdown", "Contribution to Gies Total"

Part3: Department Contribution to Gies Total

-it shows the visual and summary of the percentage share of each department's contribution to college-wide research metrics

Summary Statistics

Department	Total Pubs	% of Gies Total	Top-tier Pubs	% of Gies Top	SDG Pubs	% of Gies SDG
Business Administration	593	49.9%	197	39.4%	194	59.7%
Accountancy	349	29.4%	168	33.6%	90	27.7%
Finance	246	20.7%	135	27.0%	41	12.6%
Gies Total	**1188**	**100.0%**	**500**	**100.0%**	**325**	**100.0%**

Leaders' Journey

Step 4 - Narrative Validation

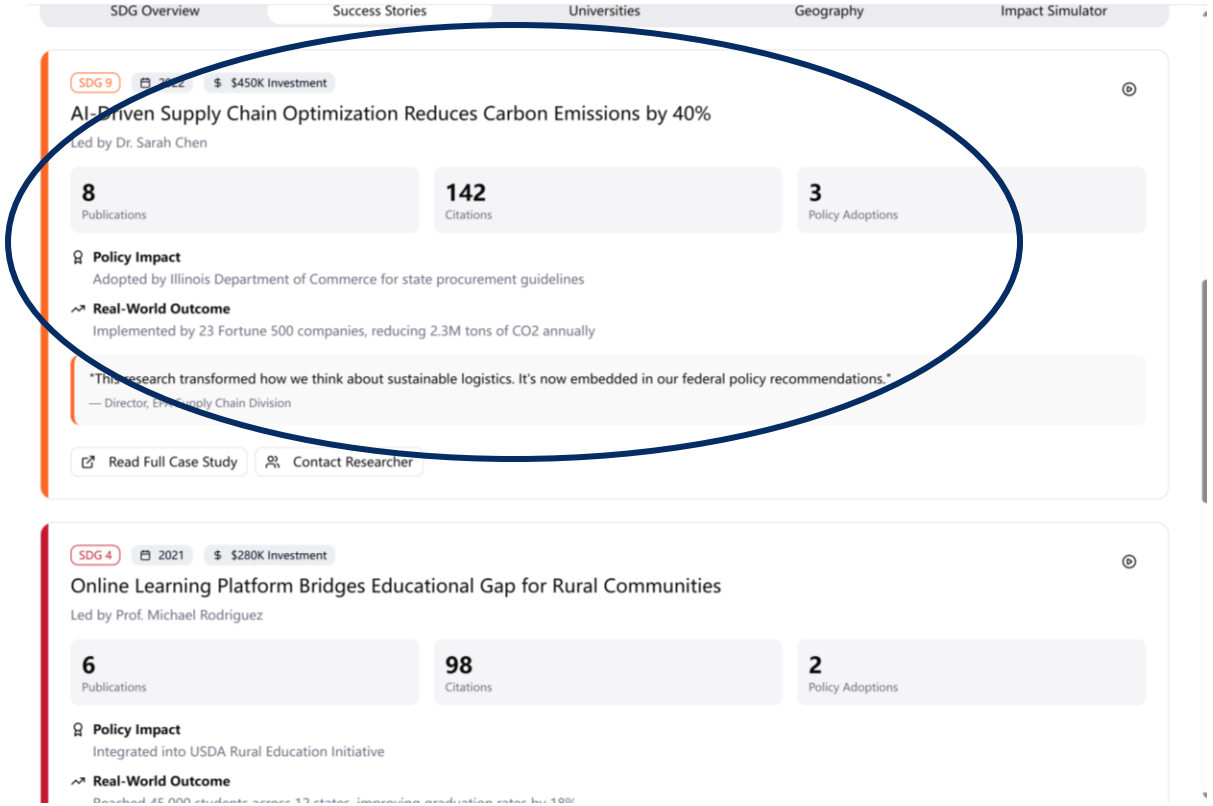

Leaders want to extract real, occurred success cases as the basis for external narratives to attract funding and enhance the reputation

In "Donor Impact" Page:

- Add "Success Stories" (with "policy impact", "real-world outcome", time, funding amount, ways to contact researcher, etc.)
- can consult the 'Success Stories' module with details

There are no success stories in the original dashboard.

404 NOT FOUND

Leaders' Journey

Step 5 – Simulated Outcome Assessment

Leaders want to assess the potential return on investment to confirm the amount of resources they should distribute on each project

In "Donor Impact" Page:

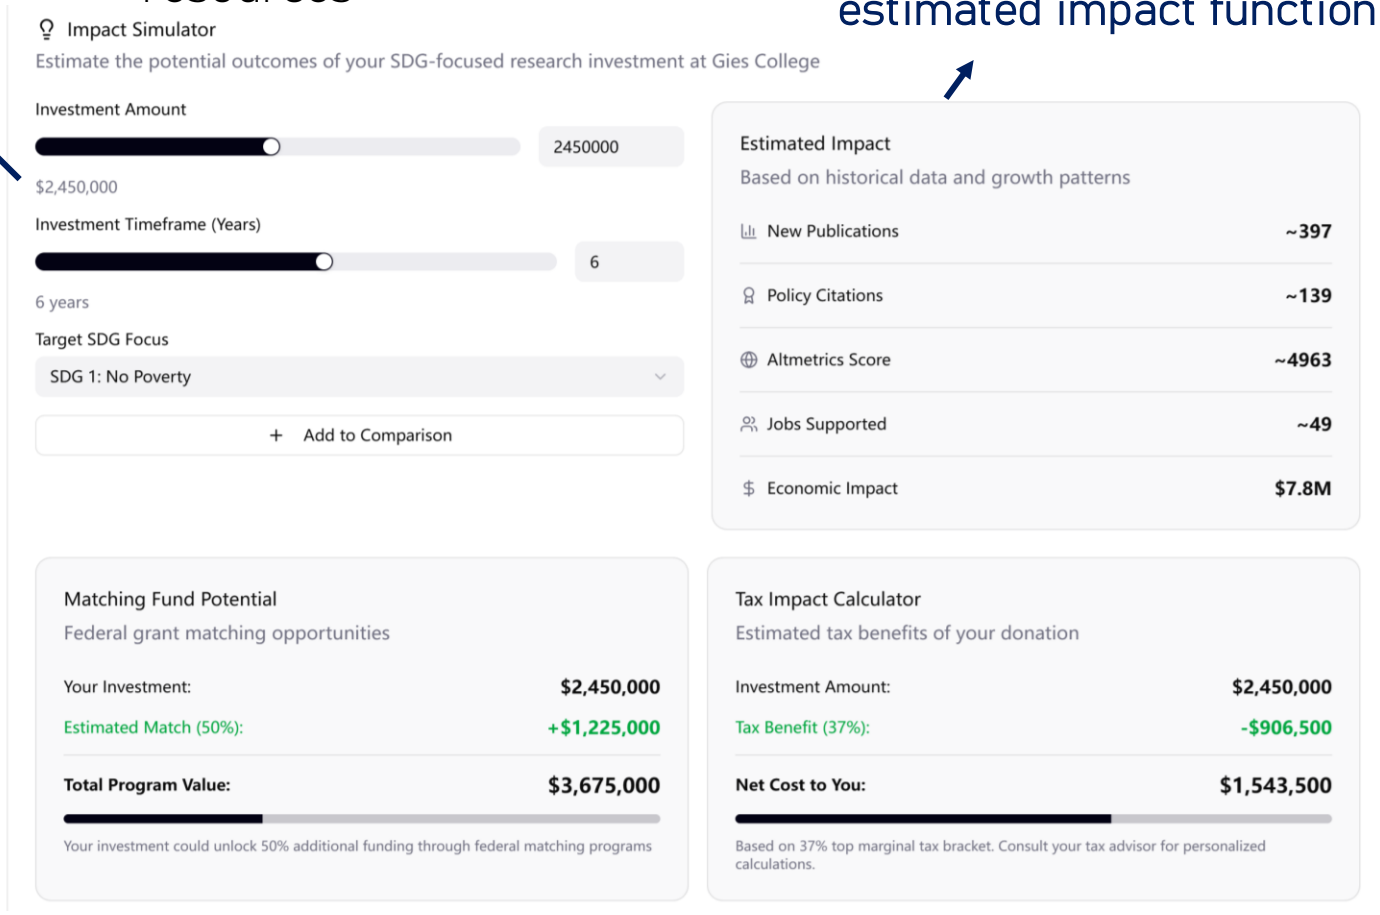

- Add "Impact Simulator" (with "budget adjustment function" and "estimated impact function")
- examine the "simulated investment plan" and assess the simulated impact so that leaders can prioritize the resources

There are no simulation function in the original dashboard.

budget adjustment function

estimated impact function

404 NOT FOUND

Leaders' Journey

Step 6 - Resource Prioritization & Final Verification

Leaders want to make the final decision on the resource prioritization.

There are limited data in the original dashboard to help leaders make decision

leaders can do cross-check, prioritize resource allocation and verify the final decision by the **former 5 steps**:

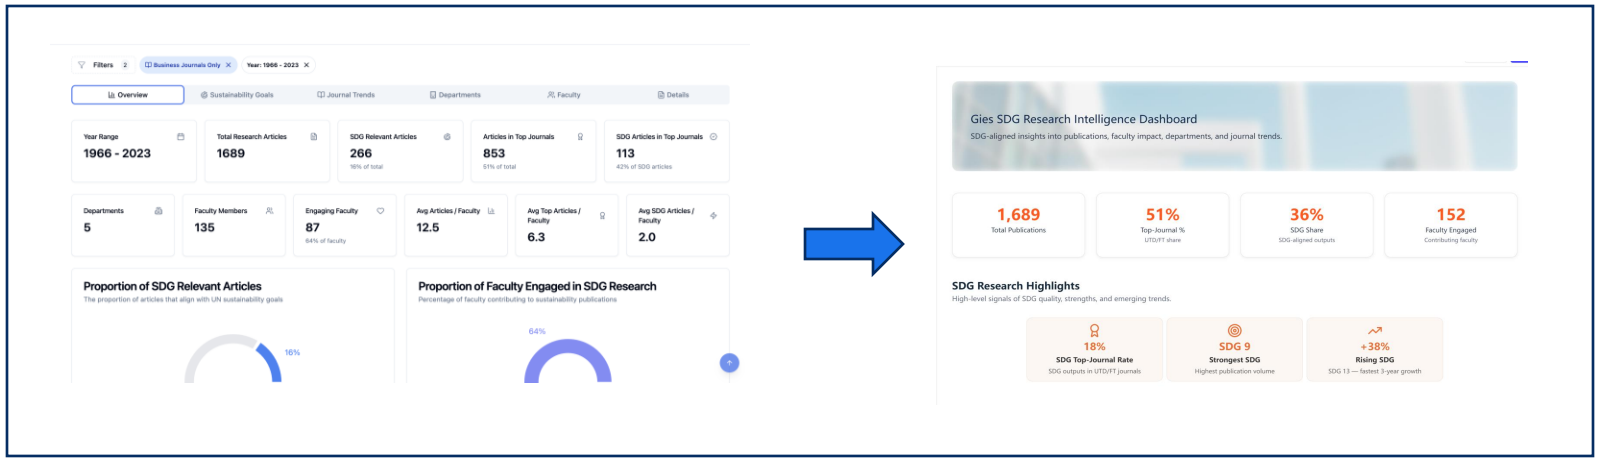

Step 1 - Assess Gies's research situation
Step 2 - Strategic Benchmarking
Step 3 - Performance Identification
Step 4 - Narrative Validation
Step 5 - Simulated Outcome Assessment

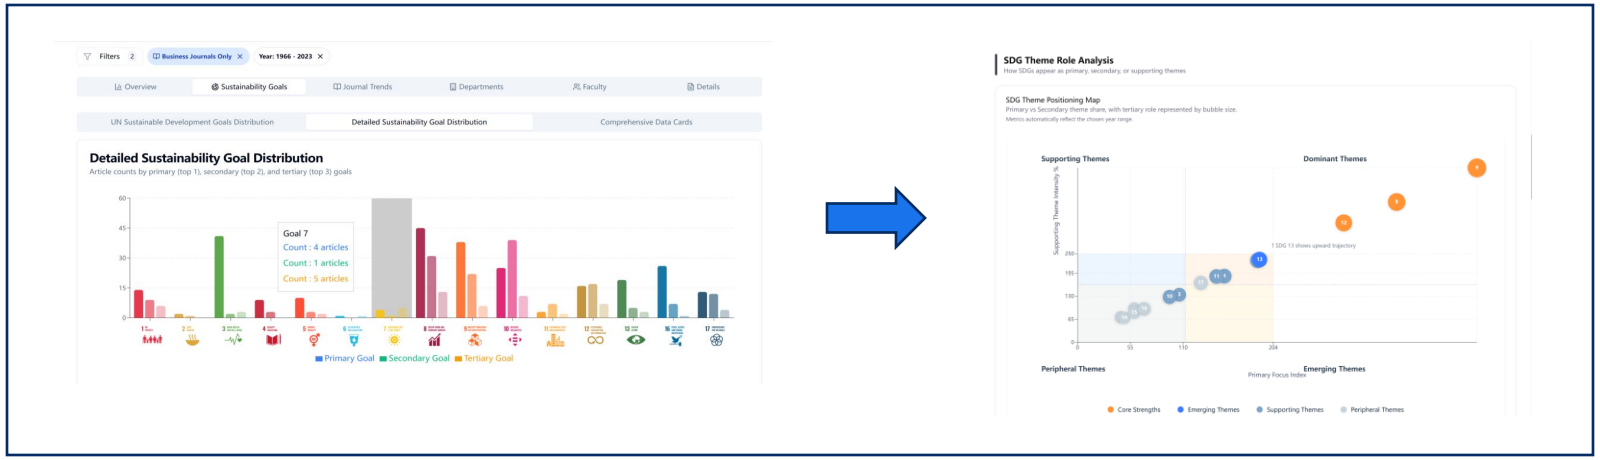

Student's journey - 4 Steps Overview

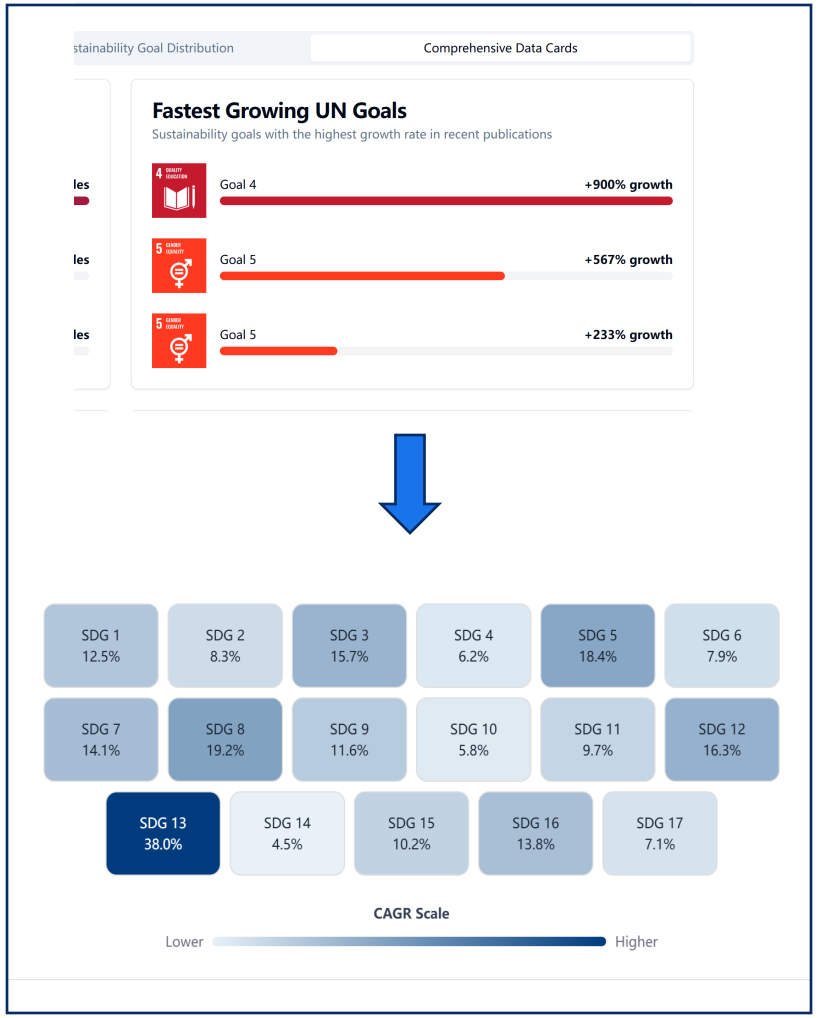

Step 1 - Overview + Understanding SDG Strengths
Step 2 - Article Exploration
Step 3 - Faculty Identification
Step 4 - Faculty Identifying in detail

Students' Journey Step1- Overview + Understanding SDG Strengths

Student wants to see the overview of Gies; But too much KPI; Cannot find the key point

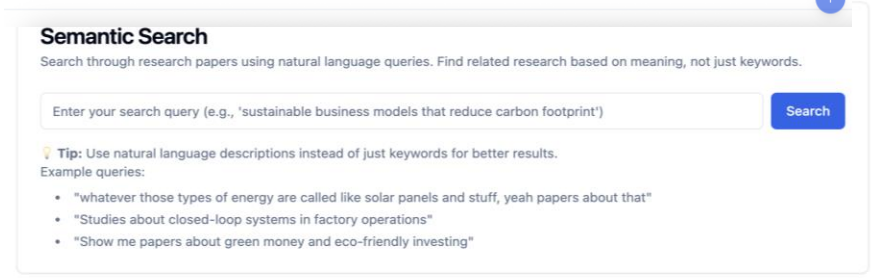

Students' Journey Step2- Article Exploration

Students want to see specific articles based on some SDG goals they are interested in.

They cannot access actual research articles. Current pages only show charts with no titles, no authors, no SDG tags, no metadata. They cannot open or read any paper behind the numbers.

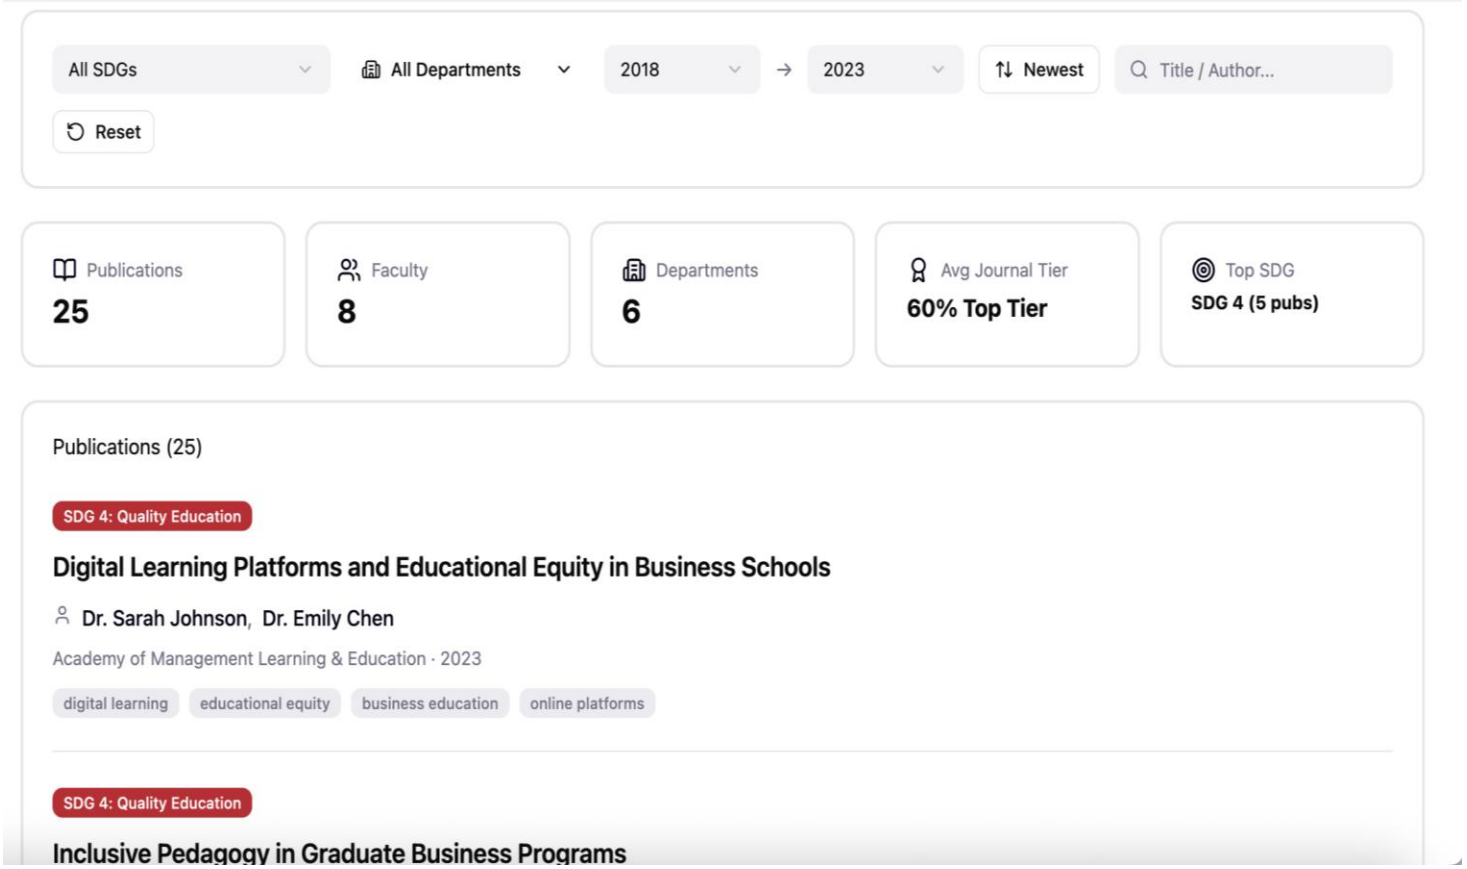

Add a new part called SDG Articles Explorer

- Search by SDG, department, author, or keywords
- Add summary cards (publications / faculty / top-tier %)
- Article cards with SDG tags and full information

Students can directly find relevant publications. Dashboard becomes useful for classwork, research, and proposals.

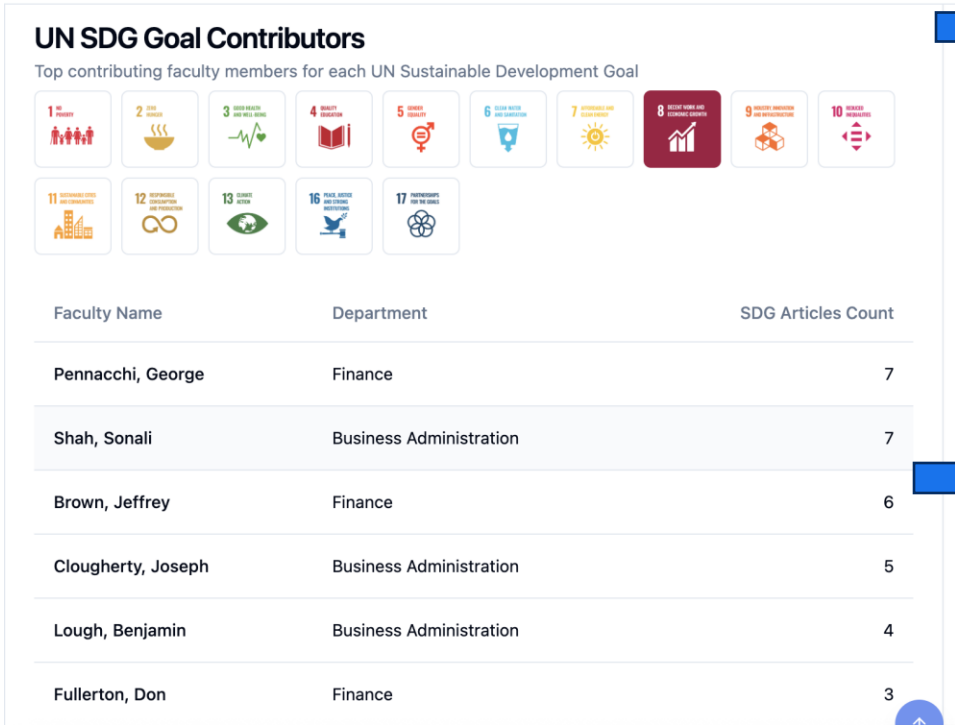

Students' Journey

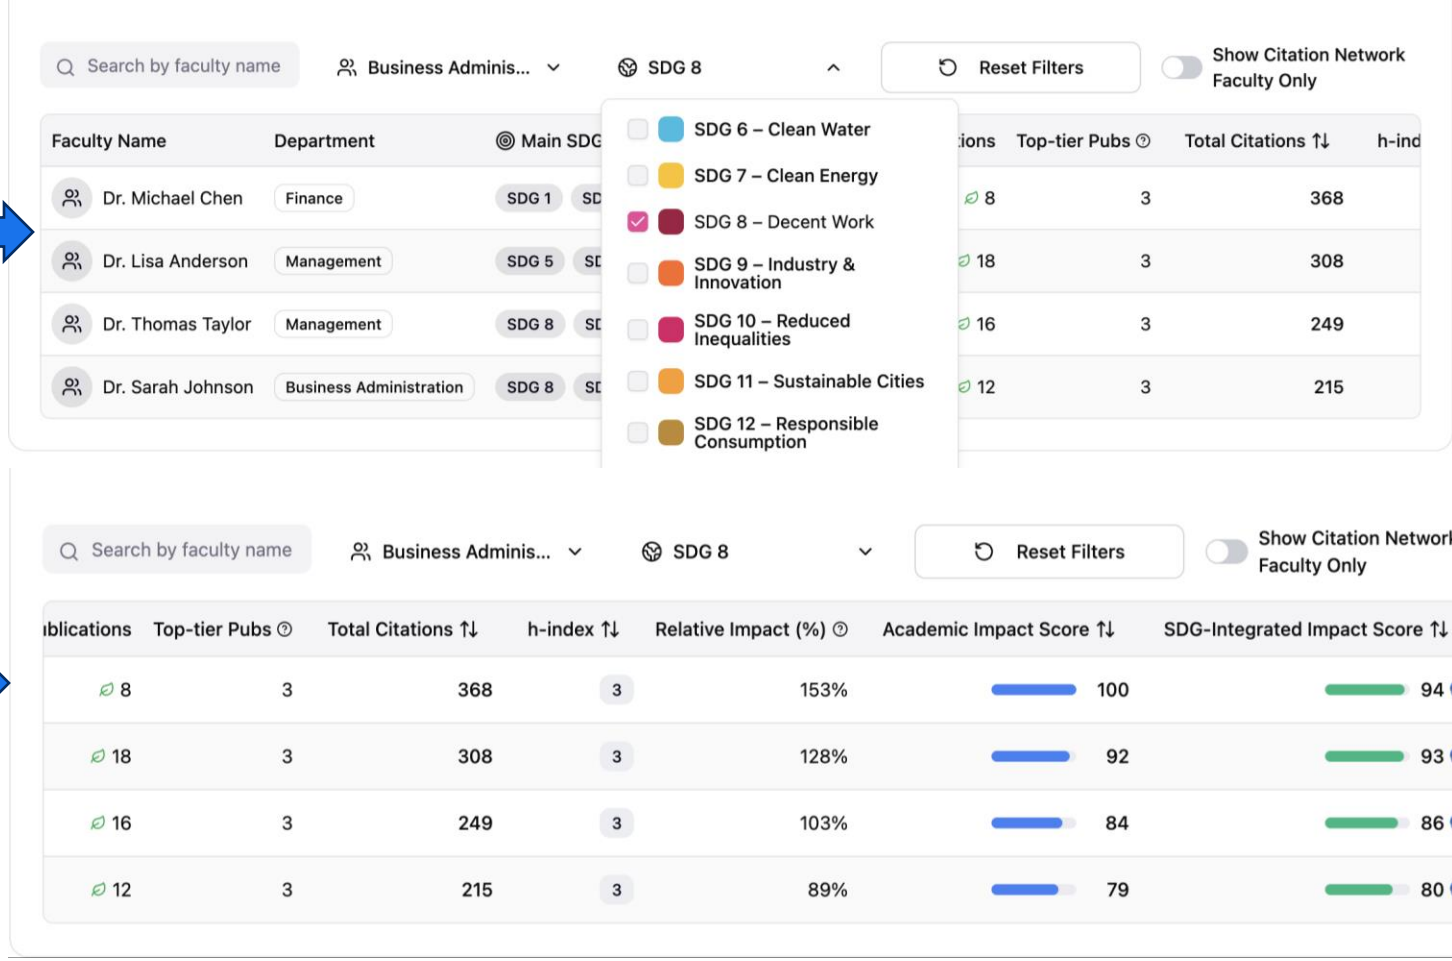

Step3-Faculty Identification

After students browse interested articles, they may have target professors, or want to find more professors based on their interested goals.

Hard to get an overview list about the faculty
No citation metrics

Add Faculty Profiles, contains Faculty productivity, SDG focus, citation, h-index, Academic Impact Score, SDG-Integrated Score...
Clear pathway for students to find research mentors

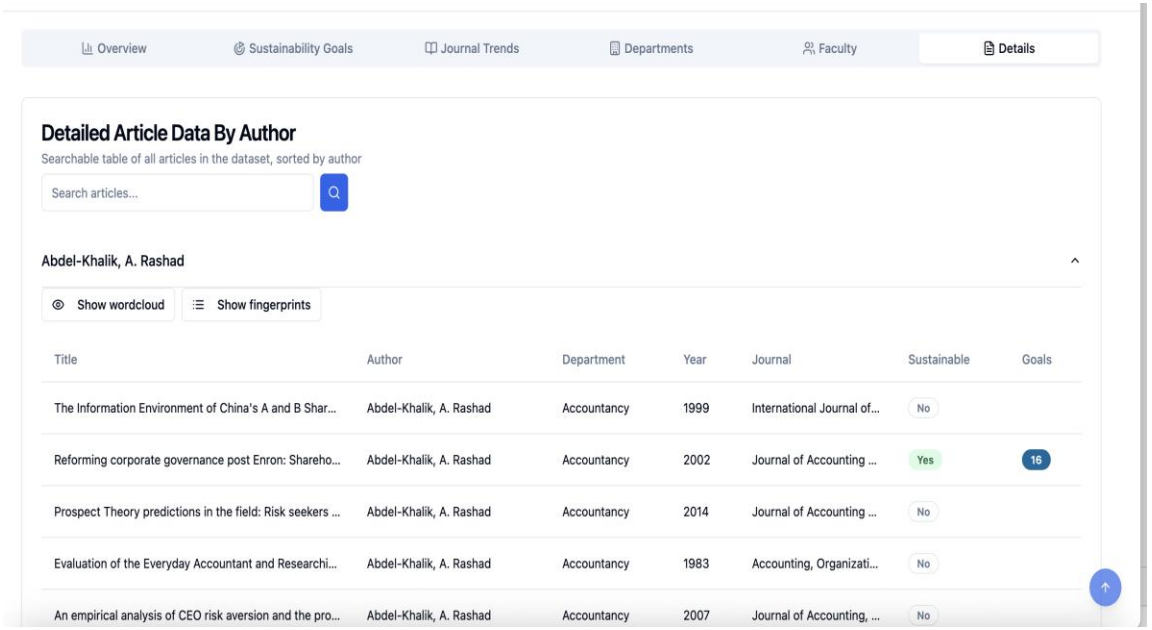

Students' Journey

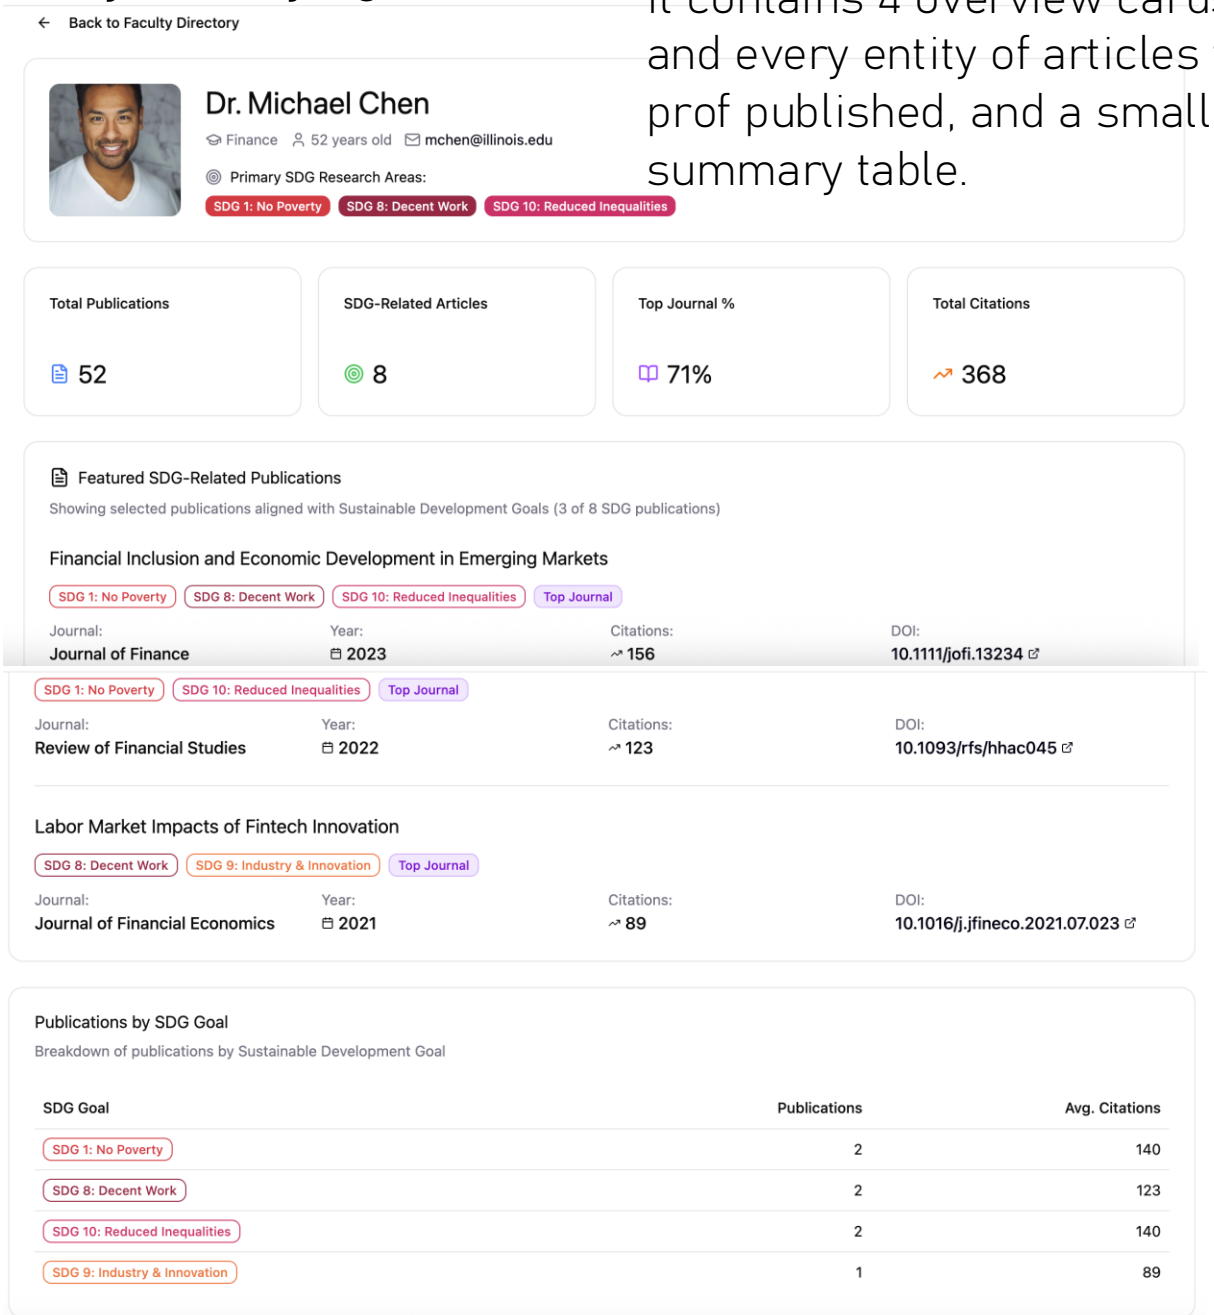

Step4-Faculty Identifying in detail

In Personal Information page, it contains 4 overview cards, and every entity of articles the prof published, and a small summary table.

After students find their target professors, they want to see details about professors they interest

Hard to get an overview about the faculty
No citation metrics

Donor's journey - 5 Steps Overview

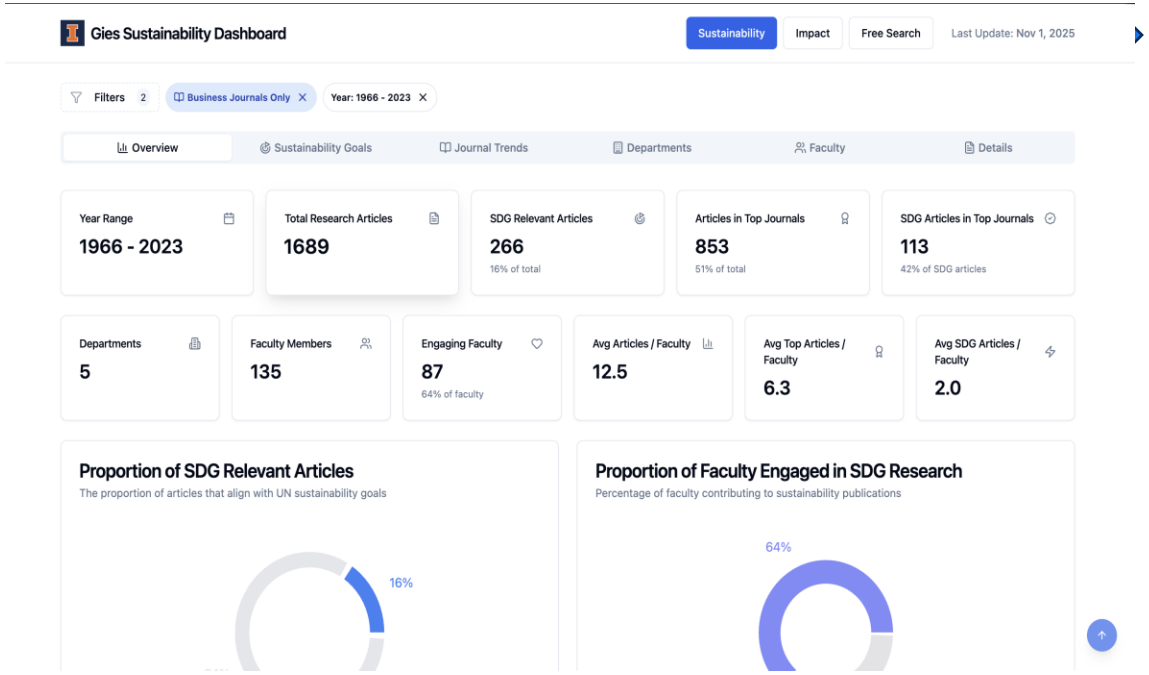

Step 1 - Identify High-Impact SDG Goals
Step 2 – Evaluate Potential Impact
Step 3 - Review Proven Success Stories
Step 4 - Explore State-Level SDG Performance
Step 5 – Explore University-Level SDG Performance

Donors' Journey

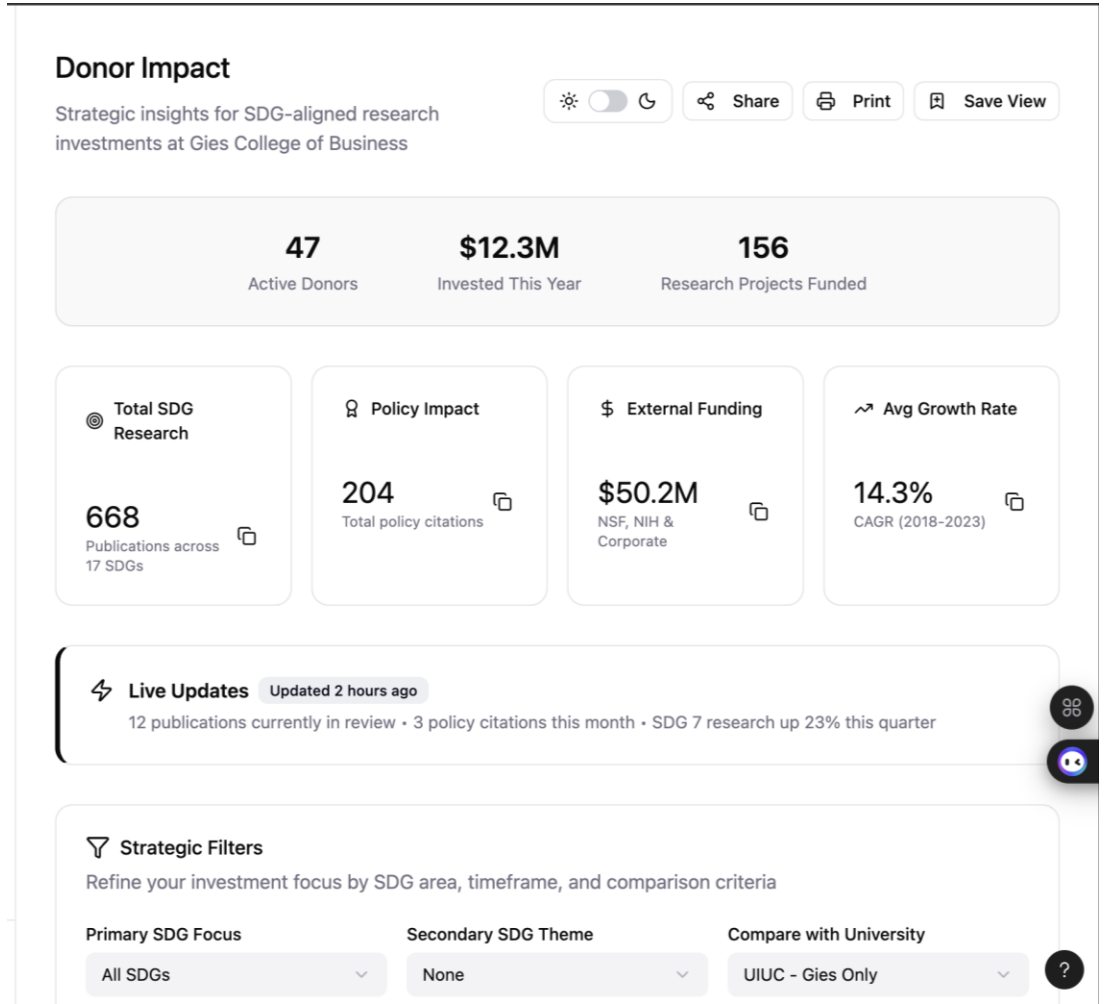

Step1- Identify High-Impact SDG Goals

Donor wants to see an overview of the Gies SDG Research.

No clear Donor oriented page present in the existing dashboard for a specific donor to see and measure impact of donations.

Add a Donor Specific page that helps measure impact of donations, comparison with other universities and help track funding and donations overall.

Donors' Journey

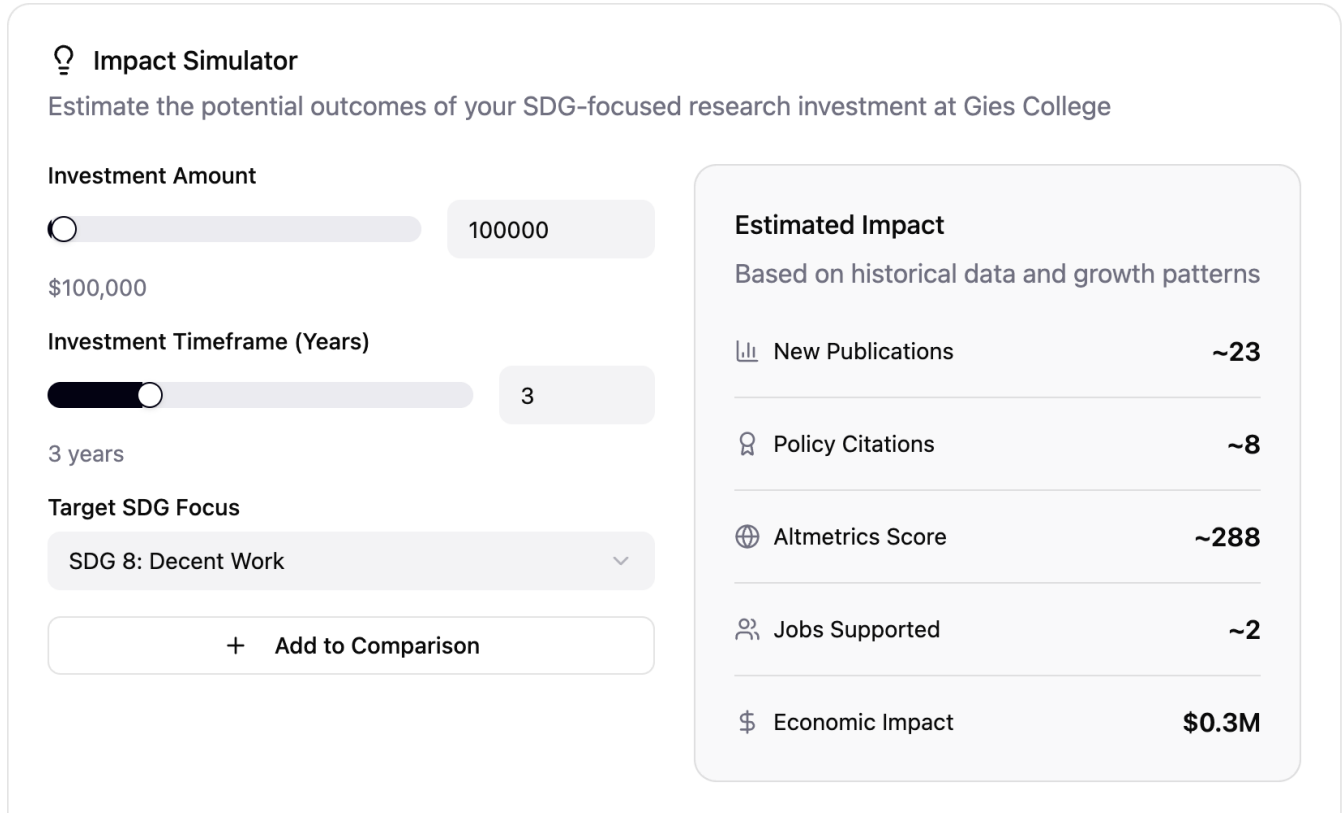

Step 2 - Evaluate Potential Impact

Donors want to evaluate the potential impact of a potential donation amount.

Does not have an option to find estimated impact of an investment. This can leave the donor in a little doubt regarding how his donation would make an impact and if it is even worth it.

404 NOT FOUND

Add an Impact simulator to measure impact of a donor investment to possibly encourage investment while giving the donor the ability to make a data driven investment.

Donors' Journey

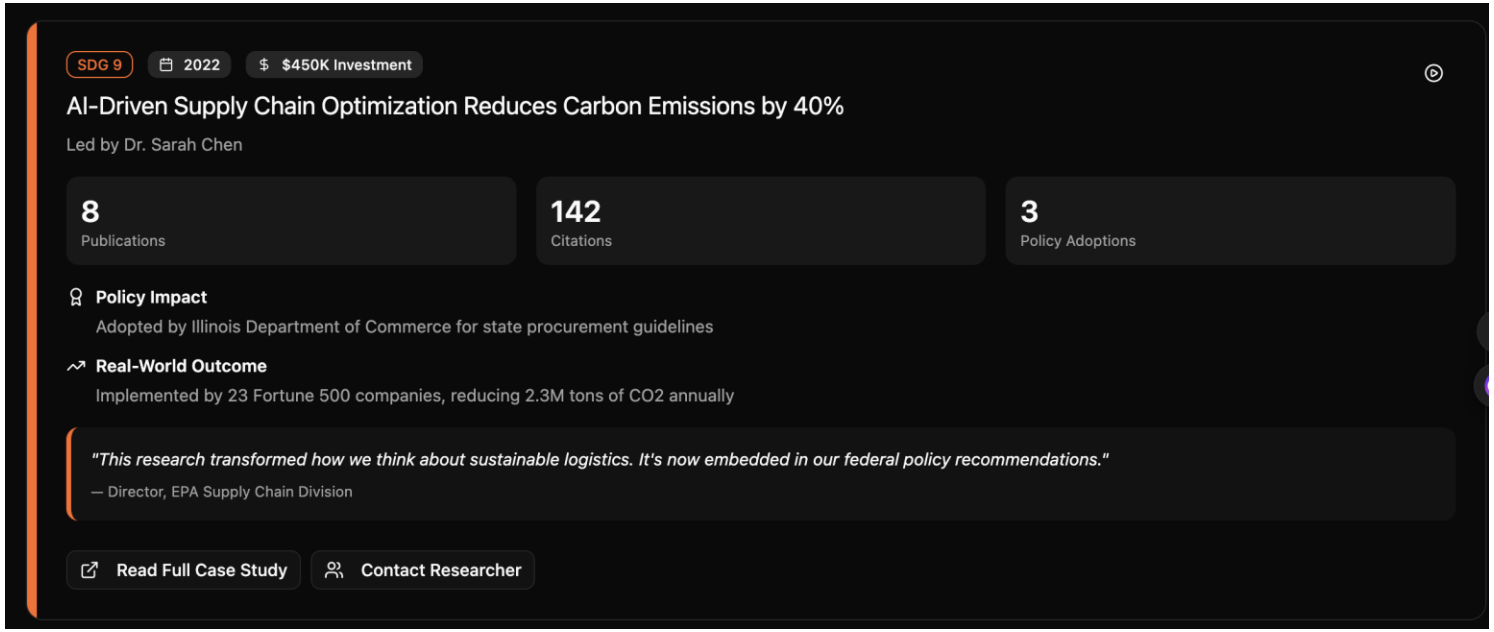

Step 3 – Review Proven Success Stories

Donor wants to review real-world success stories demonstrating how research has translated into policy influence and tangible societal outcomes.

The current dashboard does not successfully build donor trust and emotional confidence by any display of proven impact.

404 NOT FOUND

Add a Success Stories section demonstrating successful investments with significant impact to encourage potential donors.
Also given them the opportunity to read the entire case study or contact the specific researcher.

Donors' Journey

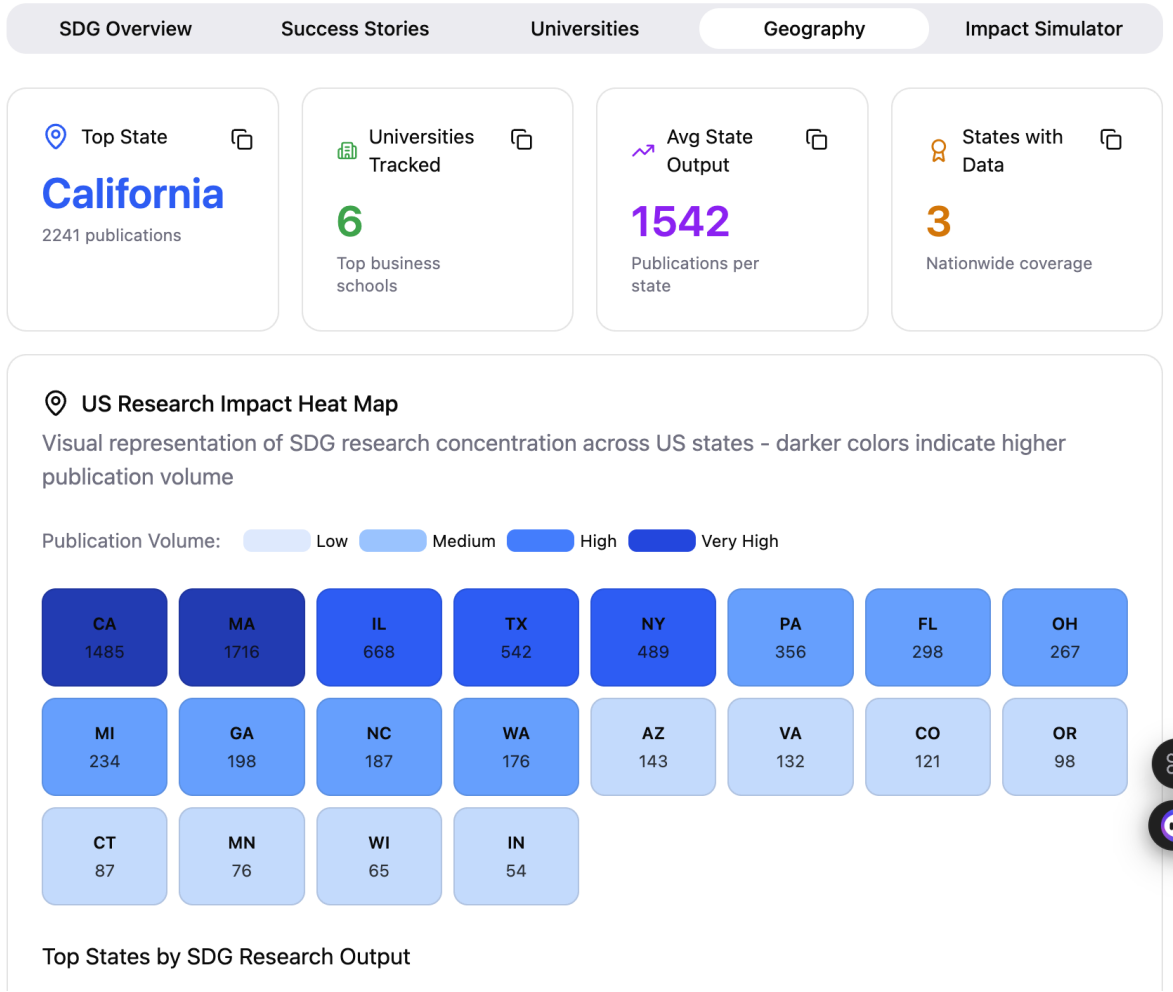

Step 4 - Explore State-Level SDG Performance

Donor wants to explore how SDG research output varies across the US states and understand Gies's geographic influence.

Existing Dashboard: Does not have the option to have a geographical comparison based on SDGs.

404 NOT FOUND

Add a Geography page to display Top States by SDG Research output.

Donors' Journey

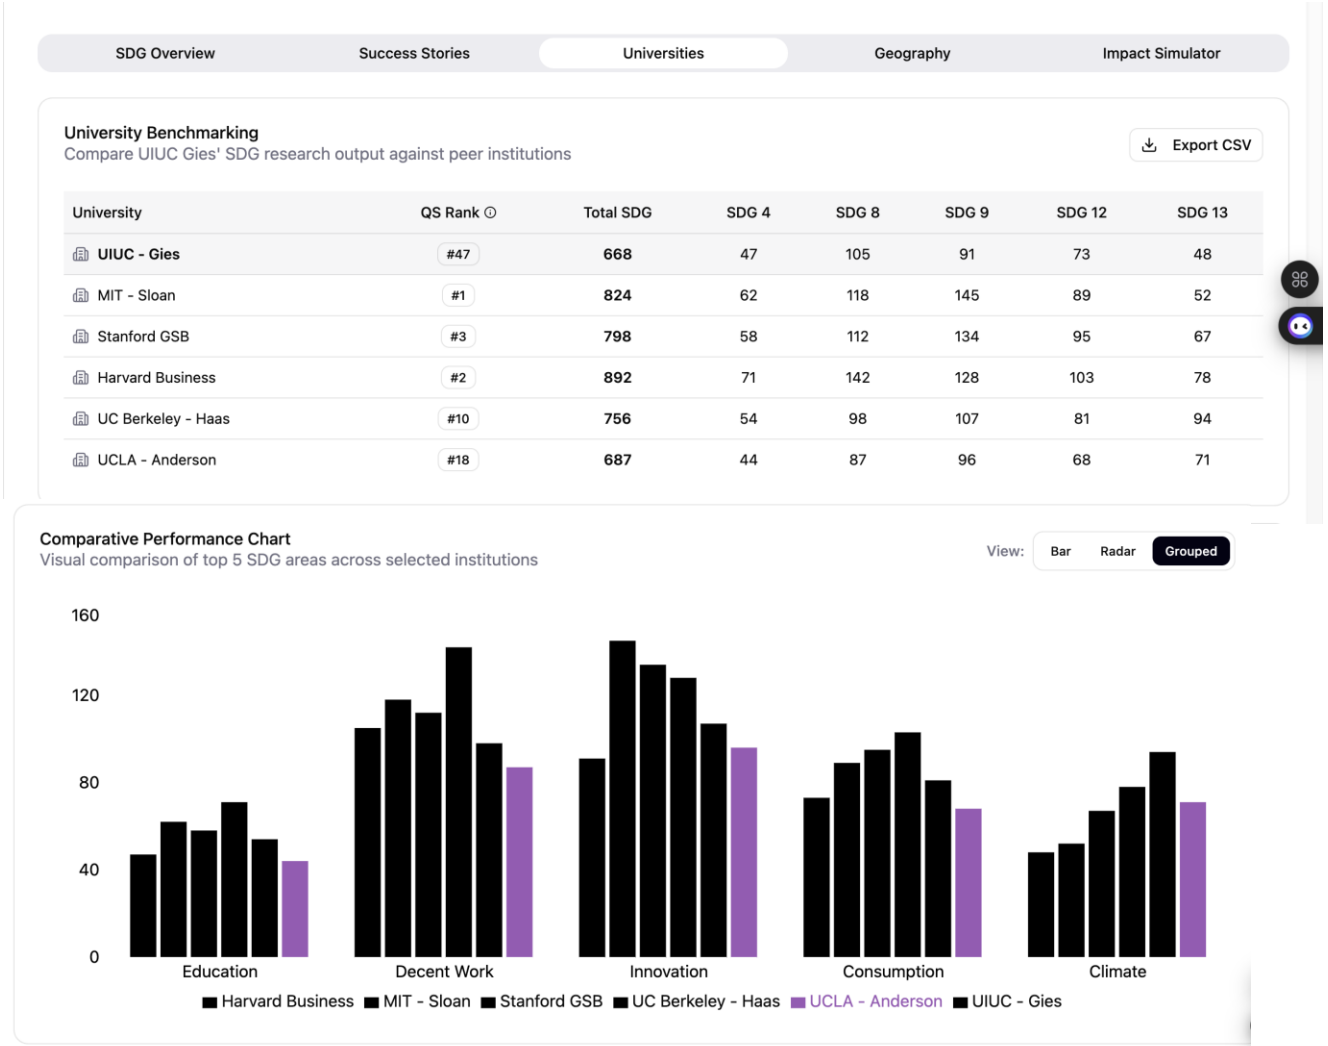

Step 5 – Explore University-Level SDG Performance

Donor wants to evaluate how Gies performs relative to peer institutions in key SDG research metrics.

Does not have the option to compare universities based on the SDGs.

404 NOT FOUND

Add a Universities page to compare universities and a visualization based on that.

Donors' Journey

- Added Feature: Donor Consultation Module

Donor has a question or wants to discuss opportunities or just needs help in general.

Does not have the option of reaching out to a specific team or person in case the donor has a question or is unclear about a particular point or is stuck regarding a particular factor.

Add a Consultation module for donors to contact the dedicated team or to schedule a consultation session to discuss donor opportunities and for problem solving if required.
